## SCHOOL BOARD MET LAST NIGHT

After 45 Minutes Had Been Spent  
In the Office of the  
Superintendent

## DISCUSSING SEVERAL MATTERS

Large Number of Bills Placed on  
Pay Roll and an Explanation Made.

## REGARD TO HELANA SCHOLARS

After some 45 minutes spent in the superintendent's room, in the discussion of various questions the board of education convened at 8:40 o'clock, with Members Vodrey, Murphy, Smith, Hill, Knowles and Wells present.

At the request of Chairman Vodrey, Prof. Rayman opened the meeting by reading the 147th Psalm and offering a brief prayer.

The minutes of November 12 were read by Clerk Hill and on motion of Mr. Murphy were approved.

Several orders of business were passed over until it came to that of the bills and the clerk went over the following:

J. Jones, plumbing	\$ 41.25
G. R. Whattan	9.85
J. H. Beemer	6.00
Kinsey Plumbing Co.	87.27
Kinsey Plumbing Co.	14.50
Ed Cook & Son	15.60
Wilson Stationery Co.	24.33
Given & Co.	28.20
Frank Crook	149.34
American Book Co.	319.22
Lewis Bros.	7.45
John B. Brich	14.00
Hill & Hawkins	1.00
Eagle Hardware Co.	2.17
M. W. Elliott	7.79
Mean's Foundry & Machine Co.	49.80
Eagle Hardware Co.	4.74
Eagle Hardware Co.	83.91
Trump Printing Co.	15.15
W. H. Adams	38.35
F. S. Albright, repairs	6.37

When the bills of the Kinsey Plumbing company were reached some inquiry was made as to what the amount, which aggregated \$101.77, was for, and it was found the work done by this firm belonged to the original contract.

After some discussion it was decided to pay the bill, but the contractors, Peck & Williams, will be charged with a similar amount.

The clerk reported that he had received a bid for the supplying of the hose and other attachments for the Helana building, and, owing to the fact that other and cheaper firms had not been asked to bid, the matter was laid over to give them an opportunity.

Superintendent Rayman took occasion to say that the pupils at the Helana building were not required to eat their lunch in a basement room, but that it had been arranged that the pupils who were required to bring their dinner were compelled to eat the same in one particular department under the supervision of one of the teachers, in order that no crumble be scattered about the floor.

Prof. Rayman also reported that one of the latest improved physical apparatus had been received at a cost of \$350 for the use of the high school, and that, in all, about \$700 had so far been expended for apparatus and books along this line, no part of

which the board would be asked to pay. The high school was amply able to take care of itself in this regard, and the superintendent merely made this statement in order to show to what extent this department had progressed.

The need of an extra teacher for the Helana school had been discussed previous to the convening of the meeting, and when the subject was afterward broached it was moved by Murphy and Wells that the matter of a selection of a teacher be left in the hands of Prof. Rayman, as he was better able to judge of the ability of the applicants and knew just what sort of a person was needed.

President Vodrey remarked that, although it had not been customary to do so, he thought it would be well for an auditing committee to be appointed to go over the books and report back to the board. He thought it was due to every one interested to know how affairs were situated, besides he and the clerk had been discussing the matter and had come to the conclusion, according to Clerk Hill's statement, that the methods of bookkeeping heretofore employed here should be changed. All seemed to be of one mind on this subject, and the chairman appointed Messrs. Wells and Murphy to attend to the work, and they will be expected to report for the year ending November 1, 1900.

Prof. Rayman thought it due the board at this time to say that there had just past three months of the present school year, and he was able to report an unusual interest on the part of both teachers and pupils, and that there had so far this year been more than the usual amount of interest taken in educational work.

On behalf of the teachers of the various schools, Superintendent Rayman invited the board to attend the lecture of G. Stanley Hall, to be delivered at the First Presbyterian church next Thursday evening.

## LIGHT COMMITTEE

### HELD A MEETING WITH MANAGER HEALY YESTERDAY.

#### A Long Discussion Was Had in Regard to the Poor Light Service.

The light committee of council met yesterday afternoon in council chamber, all members being present. The meeting convened about 2:30 o'clock, and Mr. Healy, of the electric light company, was present.

Reference was made to the poor service and by way of explanation Mr. Healy stated the company was doing the very best they could to perfect the system, but had been very unfortunate in securing lamps. They had been compelled to return two sets of lamps to the factory on account of poor workmanship.

Each of the various circuits have too many lights at present, and Mr. Healy says they propose to reduce the number of lights on a circuit and increase the number of circuits. It is thought this plan will be a great advantage to the system.

It was decided that the light company should send a representative to city hall each morning to ascertain the number and location of such lights as have been out during the night, so that the entire day can be devoted to their repair.

The matter of the insolence of some of the employees of the company when inquiries were made respecting the reason for the lights being out, was referred to at the meeting, and Mr. Healy requested that such matters be referred to him personally, and he would insure the committee that the offenders should be dealt with as the offense merits.

## MORE ABOUT THE MILLER STORY

### The Alliance Woman Declares She Did Not Give Dr. Beilhart Her Money.

### SAYS SHE IS NOT SICK

### But Went to Lisbon and Engaged in Spiritual Work and Now Says

### SHE IS CONTENTED AND HAPPY

Miss Martha Miller, of Alliance, who is reported to have turned over to Dr. Beilhart, the Lisbon spiritualist, some \$3,000 in cash, in a letter to the Alliance Leader denies the story. Her letter is as follows:

Lisbon, O., Nov. 24, 1900.  
Editor Alliance Leader.

Sir—Will you kindly publish the following facts that your readers, who desire to know the truth, may know it.

In reference to what the Review published in their last Wednesday's paper about me I wish to say:

First, I am not being treated for my health, nor have I been since I left Alliance last spring.

Second, Mr. Beilhart is not a doctor nor has he a sanitarium anywhere. Mr. Beilhart has not used any of my money to "build a fine new residence."

The facts are these: Mr. Beilhart and others are publishing two monthly papers devoted to practical Christianity. This work is founded on Christ's teachings of Free Gift.

I have been acquainted with Mr. Beilhart and his teachings for over four years. I believe in them and have contributed of what I have to assist in the cause. What I give I do of my own choice and have never been asked or demanded by any one to give. Mr. Beilhart never asks any one to help in this work, but allows those who believe as he does, to give if they choose to do so. He devotes all his time to his work without any returns. I have, since last spring, made my home here with a number of others who are working together to further what we believe to be the cause of truth. The "home" and farm are used as a place for those who work in this cause. The proceeds of our material work help to support our work of circulating free literature. My health is better than it has been for years and I am contented with my lot.

### MARTHA MILLER.

Enclosed with the communication was a copy of one of Beilhart's publications called "Spirit Fruit," with "Love" as the connecting link. The paper is sent free to every one who asks for it and no advertisements are permitted in its columns.

Following are a couple of clippings from this wonderful paper:

"This paper is to be absolutely separated from money. If you choose to give a gift to the cause it represents, you can be free to choose the amount you wish to give and to whom you wish to give it. Gifts will be received as gifts, and thoughts of thankfulness will flow to the giver. But the paper cannot be bought; it is a free gift to you. We do not believe in buying and selling the truth of Spirit; we leave that to those who think it necessary to live. We do believe in giving and receiving, as a spontaneous action of life and love within us."

"If the spirit in you desires to send a gift of love, either words or approval, love or money, it will be received. Our address is on the first page of the paper. We solicit correspondence with those who have come into life or desire to do so."

So it seems that Miss Miller is following her own inclinations, and while she may be using her money to publish a paper under her "teacher's" direction, she positively denies Beilhart has used her money to build a fine house. Neither does he run a sanitarium. It is just a "spiritual home," and she says "her health is good and she is happy."

### ROBERT HALL

### SUES JOHN PORTER TO RECOVER ON PROMISSORY NOTES.

### A Lisbon Man Files an Action for Divorce Against His Wife.

Lisbon, Nov. 27.—(Special)—Robert Hall filed suit in court today against John Porter to recover judgment on three promissory notes, which were given him in April, June and July, 1891, at New Cumberland, W. Va. The total claim is for \$1,050 and certain money in the hands of Hill & Wallace, of East Liverpool owing to Porter will be attached.

Nicholas Pontiere wants a divorce from Angeline Pontiere, to whom he was married in New Juda, Italy, fourteen years ago. Pontiere charges his wife with the crime of adultery with a person whose name is unknown to him, and also says since October 2 last she has lived with a man named Joseph West in Windham, Pa. The plaintiff is a resident of Lisbon.

Judge W. C. Wells and James A. Martin, of this place, have been appointed by the supreme court as trustees to settle up the affairs of Mt. Hope college.

City council in adjourned session last evening unanimously granted a franchise to the New York parties, represented by H. G. Folts, to construct their street railway lines over Water street in this city, running east to Beaver, thence north to Walnut and down Walnut one block to Market street. The company states that work on the road between here and Salem will be begun within a few weeks.

### WILL CHANGE POLES.

### The Contractor Who Has Charge of Calcutta Road Grading Will Soon Finish Up.

Contractor Robert Gravatt, who has in hand the improving of the upper end of Calcutta road, has his work well in hand and would have completed his part of the contract within a short time had it not been for the bad weather of the last few days.

On Friday the work had progressed to a point where it was necessary to either take down the poles recently erected by the Columbian Telephone company or they would fall down.

The contractor informed the company and had it been a fit day Monday the change in the location of the poles would have been made. Before any change can be made it will be necessary to cut down several trees, but no trouble is anticipated from this quarter, as the grading is absolutely necessary, and the trees will have to come down in order that the contract can be carried out to the letter.

## OCIE GEARY

## IN HOC AGAIN

She Was Arrested Last Evening on a Charge of Being Drunk.

### SHE DIDN'T HAVE THE MONEY

### To Pay Her Fine and as a Result She Is Still In Jail.

### UMBRELLA MENDER ARRESTED

Ocie Geary is again a boarder at the city boarding house. Ocie was drunk and disorderly last night and was captured by Officer Mahony. The patrol was called and she was given a ride to city hall.

When she faced the mayor this morning she was fined \$1 and costs, and not having the money is still behind the bars.

John Micron, an umbrella mender, was arrested last night at the saloon of Jack Ecker on Market street by Officer Mahony. He was taken to city hall, where a charge of drunk and disorderly was placed against him.

This morning Ecker appeared at city hall and told the mayor that a colored man employed at the place had been fooling with John, trying to put him out of the saloon. When he got him out he handed him over to Officer Mahony.

The mayor will give him one hour to shake the dust of the city from his feet.

Robert Hopkins, the colored man who was arrested on a charge of shooting with intent to kill Saturday night and placed under \$500 bond, was taken to Lisbon by Chief Thompson this morning to await the action of the grand jury, which sets in February.

The poker players caught in the room run by Tim Dailey Saturday night were fined \$6 60 each. The proprietor of the room was fined \$19 60. They all paid their fines.

### A RUNOFF.

### A Team Owned by Dan Welsh Frightened at the Pony This Afternoon.

A runoff occurred on East Market street at 2 o'clock this afternoon. A team of horses attached to a wagon owned by Dan Welsh, who resides at Hail Deadening, had been left standing near the fire station and they took fright at the pony, which was doing some switching in the upper yards, and started out the street toward the Diamond.

When the team reached the corner of Sixth street they ran into a telephone pole and were stopped.

### CUT AN ARTERY.

### Charles Cochran Met With a Painful Accident at the Burford Pottery.

While working at the Burford pottery yesterday afternoon Charles Cochran was so unfortunate as to cut an artery in the thumb of his left hand. He went to the office of Dr. Bailey, where the injured member was dressed.

He will be unable to work for a few days.

## MORE ABOUT THE MILLER STORY

The Alliance Woman Declares She Did Not Give Dr. Beilhart Her Money.

SAYS SHE IS NOT SICK

But Went to Lisbon and Engaged In Spiritual Work and Now Says

SHE IS CONTENTED AND HAPPY

Miss Martha Miller, of Alliance, who is reported to have turned over to Dr. Beilhart, the Lisbon spiritualist, some \$3,000 in cash, in a letter to the Alliance Leader denies the story. Her letter is as follows:

Lisbon, O., Nov. 24, 1900.  
Editor Alliance Leader.

Sir—Will you kindly publish the following facts that your readers, who desire to know the truth, may know it.

In reference to what the Review published in their last Wednesday's paper about me I wish to say:

First, I am not being treated for my health, nor have I been since I left Alliance last spring.

Second, Mr. Beilhart is not a doctor nor has he a sanitarium anywhere. Mr. Beilhart has not used any of my money to "build a fine new residence."

### HELD A MEETING WITH MANAGER HEALY YESTERDAY.

### A Long Discussion Was Had in Regard to the Poor Light Service.

The light committee of council met yesterday afternoon in council chamber, all members being present. The meeting convened about 2:30 o'clock, and Mr. Healy, of the electric light company, was present.

Reference was made to the poor service and by way of explanation Mr. Healy stated the company was doing the very best they could to perfect the system, but had been very unfortunate in securing lamps. They had been compelled to return two sets of lamps to the factory on account of poor workmanship.

Each of the various circuits have too many lights at present, and Mr. Healy says they propose to reduce the number of lights on a circuit and increase the number of circuits. It is thought this plan will be a great advantage to the system.

It was decided that the light company should send a representative to city hall each morning to ascertain the number and location of such lights as have been out during the night, so that the entire day can be devoted to their repair.

The matter of the insolence of some of the employes of the company when inquiries were made respecting the reason for the lights being out, was referred to at the meeting, and Mr. Healy requested that such matters be referred to him personally, and he would insure the committee that the offenders should be dealt with as the offense merits.

## MORE ABOUT THE MILLER STORY

### The Alliance Woman Declares She Did Not Give Dr. Beilhart Her Money.

### SAYS SHE IS NOT SICK

### But Went to Lisbon and Engaged In Spiritual Work and Now Says

### SHE IS CONTENTED AND HAPPY

Miss Martha Miller, of Alliance, who is reported to have turned over to Dr. Beilhart, the Lisbon spiritualist, some \$3,000 in cash, in a letter to the Alliance Leader denies the story. Her letter is as follows:

Lisbon, O., Nov. 24, 1900.  
Editor Alliance Leader.

Sir—Will you kindly publish the following facts that your readers, who desire to know the truth, may know it.

In reference to what the Review published in their last Wednesday's paper about me I wish to say:

First, I am not being treated for my health, nor have I been since I left Alliance last spring.

Second, Mr. Beilhart is not a doctor nor has he a sanitarium anywhere. Mr. Beilhart has not used any of my money to "build a fine new residence."

The facts are these: Mr. Beilhart and others are publishing two monthly papers devoted to practical Christianity. This work is founded on Christ's teachings of Free Gift.

I have been acquainted with Mr. Beilhart and his teachings for over four years. I believe in them and have contributed of what I have to assist in the cause. What I give I do of my own choice and have never been asked or demanded by any one to give. Mr. Beilhart never asks any one to help in this work, but allows those who believe as he does, to give if they choose to do so. He devotes all his time to his work without any returns. I have, since last spring, made my home here with a number of others who are working together to further what we believe to be the cause of truth. The "home" and farm are used as a place for those who work in this cause. The proceeds of our material work help to support our work of circulating free literature. My health is better than it has been for years and I am contented with my lot.

### MARTHA MILLER.

Enclosed with the communication was a copy of one of Beilhart's publications called "Spirit Fruit," with "Love" as the connecting link. The paper is sent free to every one who asks for it and no advertisements are permitted in its columns.

Following are a couple of clippings from this wonderful paper:

"This paper is to be absolutely separated from money. If you choose to give a gift to the cause it represents, you can be free to choose the amount you wish to give and to whom you wish to give it. Gifts will be received as gifts, and thoughts of thankfulness will flow to the giver. But the paper cannot be bought; it is a free gift to you. We do not believe in buying and selling the truth of Spirit; we leave that to those who think it necessary to live. We do believe in giving and receiving, as a spontaneous action of life and love within us."

"If the spirit in you desires to send a gift of love, either words or approval, love or money, it will be received. Our address is on the first page of the paper. We solicit correspondence with those who have come into life or desire to do so."

So it seems that Miss Miller is following her own inclinations, and while she may be using her money to publish a paper under her "teacher's" direction, she positively denies Beilhart has used her money to build a fine house. Neither does he run a sanitarium. It is just a "spiritual home," and she says "her health is good and she is happy."

### A Lisbon Man Files an Action for Divorce Against His Wife.

Lisbon, Nov. 27.—(Special)—Robert Hall filed suit in court today against John Porter to recover judgment on three promissory notes, which were given him in April, June and July, 1891, at New Cumberland, W. Va. The total claim is for \$1,050 and certain money in the hands of Hill & Wallace, of East Liverpool owing to Porter will be attached.

Nicholas Pontiere wants a divorce from Angeline Pontiere, to whom he was married in New Juda, Italy, fourteen years ago. Pontiere charges his wife with the crime of adultery with a person whose name is unknown to him, and also says since October 2 last she has lived with a man named Joseph West in Windsper, Pa. The plaintiff is a resident of Lisbon.

Judge W. C. Wells and James A. Martin, of this place, have been appointed by the supreme court as trustees to settle up the affairs of Mt. Hope college.

City council in adjourned session last evening unanimously granted a franchise to the New York parties, represented by H. G. The company states that work on the road between here and Salem will be begun within a few weeks.

## WILL CHANGE POLES.

### The Contractor Who Has Charge of Calcutta Road Grading Will Soon Finish Up.

Contractor Robert Gravatt, who has in hand the improving of the upper end of Calcutta road, has his work well in hand and would have completed his part of the contract within a short time had it not been for the bad weather of the last few days.

On Friday the work had progressed to a point where it was necessary to either take down the poles recently erected by the Columbiana County Telephone company or they would fall down.

The contractor informed the company and had it been a fit day Monday the change in the location of the poles would have been made. Before any change can be made it will be necessary to cut down several trees, but no trouble is anticipated from this quarter, as the grading is absolutely necessary, and the trees will have to come down in order that the contract can be carried out to the letter.

## UMBRELLA MENDER ARRESTED

Ocie Geary is again a boarder at the city boarding house. Ocie was drunk and disorderly last night and was captured by Officer Mahony. The patrol was called and she was given a ride to city hall.

When she faced the mayor this morning she was fined \$1 and costs, and not having the money is still behind the bars.

John Micron, an umbrella mender, was arrested last night at the saloon of Jack Ecker on Market street by Officer Mahony. He was taken to city hall, where a charge of drunk and disorderly was placed against him.

This morning Ecker appeared at city hall and told the mayor that a colored man employed at the place had been fooling with John, trying to put him out of the saloon. When he got him out he handed him over to Officer Mahony.

The mayor will give him one hour to shake the dust of the city from his feet.

Robert Hopkins, the colored man who was arrested on a charge of shooting with intent to kill Saturday night and placed under \$500 bond, was taken to Lisbon by Chief Thompson this morning to await the action of the grand jury, which sets in February.

The poker players caught in the room run by Tim Dailey Saturday night were fined \$6 60 each. The proprietor of the room was fined \$19 60. They all paid their fines.

## A RUNOFF.

### A Team Owned by Dan Welsh Frightened at the Pony This Afternoon.

A runoff occurred on East Market street at 2 o'clock this afternoon. A team of horses attached to a wagon owned by Dan Welsh, who resides at Hail Deadening, had been left standing near the fire station and they took fright at the pony, which was doing some switching in the upper yards, and started out the street toward the Diamond.

When the team reached the corner of Sixth street they ran into a telephone pole and were stopped.

## AND THE NECESSARY REPAIRS

Contractors Indignant at an Article Which Appeared In the News Review.

### VARIOUS SIDES OF QUESTION

An article appeared in the News Review of Saturday, November 24, respecting the condition of the street paving at the commencement of Trentvale street, on West Market. This article was written by a trustworthy, careful and painstaking reporter, and the information embraced in said article was gleaned from what is deemed thoroughly reliable parties.

In Saturday's issue the statement was made that the paving at the point designated is very bad, and that in all probability council would not accept it from the hands of the contractor until the faults were remedied. It was further stated that the heavy traffic wagons had torn the paving loose and left it in bad condition; and, further, that the bricks were laid wrong at the intersection.

Rinehart & Ryan are the contractors, and they were very indignant at the statement as it appeared. Harrison Rinehart called at this office and courteously requested the writer of this article to accompany him to Trentvale street and make a personal inspection, which request was gladly acceded to, and the ground in question was thoroughly gone over. We are not experts in street paving; we are not specialists on intersections; we are not acting for the city of East Liverpool, and we are not interfering with the duties of councilmen, the men who are supposed to look carefully and conscientiously after the best interests of the people at large. Neither do we desire to do injury or to be guilty of an injustice to any honest or conscientious contractor. Mr. Rinehart states that the work of the contractors at this point is all right, and in strict conformity with specifications. Inspection demonstrated the fact that the bricks are sunken from the gutter on the right hand side of West Market street to the entry of Trentvale street, a distance of about thirty feet; but Mr. Rinehart assured us that this is the fault of the city engineer, he having put down a sewer at the point designated, and the pavement afterwards sinking where his work had been done. Mr. Rinehart said this matter could be remedied for a sum not exceeding three dollars. He also stated that the pavement was laid all right, the brick being placed at right angles with West Market street, as is right and proper and in conformity with all well established rules in paving. He further said that it was to Rinehart & Ryan's best interests to do the work in a first-class manner, as they, the contractors, were compelled to keep the streets in repair for one year after they were accepted by council.

The writer has since interviewed a member of council, and he states that he has personally inspected the work, and that it is not properly done, and that the brick at the point where Trentvale street is reached are not properly laid; that instead of being laid at right angles with West Market, they should be laid in "V" shape, as has been done at other points of a like nature. He further insists that the work will not be accepted by council until everything is satisfactory, and that this rule will control in all

future contracts, including street paving and grading. Speaking along the line of the contractors being held responsible for repairs for one year after their work has been accepted by council, he says that this is the law, but that it amounts to nothing, as council has been paying the contractors up in full, when 10 per cent of the amount should be retained for the time designated, one year, in order that this might insure better work in the first place and be full security for repairs within the time specified, when the work was not properly done; admitting, however, that if the bond of the contractors embraces the said year, then it would be an injustice to hold the said 10 per cent.

And we now await fuller developments.

### A NEW POSITION.

Our Former Townsman, Al W. Ferren, Now Holds a Responsible Position at Monessen, Pa.

The Monessen News of Saturday says:

"Al Ferren, of East Liverpool, O., formerly the genial and accommodating manager of C. M. Derickson's store, has been elected to the position of clerk in the tin plate office, made vacant by J. Howard Kelly's appointment to cashier of the Monessen National bank.

"Mr. Ferren is a faithful and active worker in the Methodist church, and many contributions to the church's finances are due to his energetic efforts. During his short but pleasing residence in Monessen he has gained numerous friends and associates who will be glad to hear of his advancement, and wish him abundant success at his new station."

The many friends of Mr. Ferren in this city will be pleased to hear of his good fortune.

### TELEPHONE SERVICE.

Rights And Privileges of Subscribers to Telephone Service—Don't Abuse Them.

To the Editor of the News Review. Nov. 22, 1900.

Dear Sir:

The people of Columbiana County in general and some of the patrons of the Columbiana County Telephone company are laboring under a mistaken idea of the proper use of the telephone. In the first place no company can give service and maintain that service free. We are receiving complaints from all parts of the county by our subscribers, that they are not put in communication with customers in other towns quickly, and many of them suggest that we string more wires to supply the demand for out of town service. At the same time little do they think of the cause of the delay. A thousand and one wires will not supply the demand for an absolutely free service. If you buy a ticket to Lisbon, does that include all your friends and neighbors? No. Now I do not believe that any subscriber would wilfully abuse the service, but without thinking or considering, many are so doing. The lines between towns are put up and maintained for the benefit of those who have and are willing to pay a very moderate price for their use. Every subscriber, according to his contract, has a right to call up a party in any other town in the county and talk to that subscriber for a limited time without extra charge. It is paid for in his rental. If that subscriber has an employee, whom he, the subscriber—wishes to have him—the employee—transact business for him over the 'phone, then the employee has the same right to the line for that purpose and that purpose only, as the proprietor himself. No employee or person other than the subscriber's has any right whatever to the use of the lines free of charge.

This may seem arbitrary, but when you take into consideration the fact that every time a subscriber lets a non-subscriber use his telephone to communicate with some friend in another town, he is using that line—more than likely—to the exclusion of some business man who has already paid for the use of that line, and should have it. Therefore, if our patrons will remember this, and when a non-subscriber asks for the use of the toll lines, tell them that the toll lines are not free to the world, we will do our part to give you—our subscriber—a prompt and efficient service. Our switch-board girls will, in the future, ask the party who wishes to talk out of town, whether they are subscribers or not, or whether the business is to be transacted for the subscriber—wherever they are not familiar with the voice—and if they are found not to be a subscriber, and the subscriber insists upon their using the line, the toll will be charged up to that 'phone number. In this way, and this way only, can we ever expect to give prompt service to those who pay for it.

This Is the Question Which Is Being Discussed Respecting Street Paving

## AND THE NECESSARY REPAIRS

Contractors Indignant at an Article Which Appeared In the News Review.

### VARIOUS SIDES OF QUESTION

An article appeared in the News Review of Saturday, November 24, respecting the condition of the street paving at the commencement of Trentvale street, on West Market. This article was written by a trustworthy, careful and painstaking reporter, and the information embraced in said article was gleaned from what is deemed thoroughly reliable parties.

In Saturday's issue the statement was made that the paving at the point designated is very bad, and that in all probability council would not accept it from the hands of the contractor until the faults were remedied. It was further stated that the heavy traffic wagons had torn the paving loose and left it in bad condition; and, further, that the bricks were laid wrong at the intersection.

Rinehart & Ryan are the contractors, and they were very indignant at the statement as it appeared. Harrison Rinehart called at this office and courteously requested the writer of this article to accompany him to Trentvale street and make a personal inspection, which request was gladly acceded to, and the ground in question was thoroughly gone over. We are not experts in street paving; we are not specialists on intersections; we are not acting for the city of East Liverpool, and we are not interfering with the duties of councilmen, the men who are supposed to look carefully and conscientiously after the best interests of the people at large. Neither do we desire to do injury or to be guilty of an injustice to any honest or conscientious contractor. Mr. Rinehart states that the work of the contractors at this point is all right, and in strict conformity with specifications. Inspection demonstrated the fact that the bricks are sunken from the gutter on the right hand side of West Market street to the entry of Trentvale street, a distance of about thirty feet; but Mr. Rinehart assured us that this is the fault of the city engineer, he having put down a sewer at the point designated, and the pavement afterwards sinking where his work had been done. Mr. Rinehart said this matter could be remedied for a sum not exceeding three dollars. He also stated that the pavement was laid all right, the brick being placed at right angles with West Market street, as is right and proper and in conformity with all well established rules in paving. He further said that it was to Rinehart & Ryan's best interests to do the work in a first-class manner, as they, the contractors, were compelled to keep the streets in repair for one year after they were accepted by council.

The writer has since interviewed a member of council, and he states that he has personally inspected the work, and that it is not properly done, and that the brick at the point where Trentvale street is reached are not properly laid; that instead of being laid at right angles with West Market, they should be laid in "V" shape, as has been done at other points of a like nature. He further insists that the work will not be accepted by council until everything is satisfactory, and that this rule will control in all

future contracts, including street paving and grading. Speaking along the line of the contractors being held responsible for repairs for one year after their work has been accepted by council, he says that this is the law, but that it amounts to nothing, as council has been paying the contractors up in full, when 10 per cent of the amount should be retained for the time designated, one year, in order that this might insure better work in the first place and be full security for repairs within the time specified, when the work was not properly done; admitting, however, that if the bond of the contractors embraces the said year, then it would be an injustice to hold the said 10 per cent.

And we now await fuller developments.

### A NEW POSITION.

Our Former Townsman, Al W. Ferren, Now Holds a Responsible Position at Monessen, Pa.

The Monessen News of Saturday says:

"Al Ferren, of East Liverpool, O., formerly the genial and accommodating manager of C. M. Derickson's store, has been elected to the position of clerk in the tin plate office, made vacant by J. Howard Kelly's appointment to cashier of the Monessen National bank.

"Mr. Ferren is a faithful and active worker in the Methodist church, and many contributions to the church's finances are due to his energetic efforts. During his short but pleasing residence in Monessen he has gained numerous friends and associates who will be glad to hear of his advancement, and wish him abundant success at his new station."

The many friends of Mr. Ferren in this city will be pleased to hear of his good fortune.

Captain Palmer, of the East Liverpool News Review, has started after the ward heelers and is making it hot for them. He declares that some of them have been bleeding candidates of money for their "influence" and not a few of them have been known to bleed the opposing candidates after having accepted money for services.

It's about time that a halt be called upon such fellows. The Republicans of East Liverpool will have reason to second the efforts of Captain Palmer as calculated to correct an abuse that has grown to be notorious.

### TELEPHONE SERVICE.

Rights And Privileges of Subscribers to Telephone Service—Don't Abuse Them.

To the Editor of the News Review.

Nov. 22, 1900.

Dear Sir:

The people of Columbiana County in general and some of the patrons of the Columbiana County Telephone company are laboring under a mistaken idea of the proper use of the telephone. In the first place no company can give service and maintain that service free. We are receiving complaints from all parts of the country by our subscribers, that they are not put in communication with customers in other towns quickly, and many of them suggest that we string more wires to supply the demand for out of town service. At the same time little do they think of the cause of the delay. A thousand and one wires will not supply the demand for an absolutely free service.

If you buy a ticket to Lisbon, does that include all your friends and neighbors? No. Now I do not believe that any subscriber would wilfully abuse the service, but without thinking or considering, many are so doing. The lines between towns are put up and maintained for the benefit of those who have and are willing to pay a very moderate price for their use. Every subscriber, according to his contract, has a right to call up a party in any other town in the county and talk to that subscriber for a limited time without extra charge. It is paid for in his rental. If that subscriber has an employee, whom he, the subscriber—wishes to have him—the employee—transact business for him over the 'phone, then the employee has the same right to the line for that purpose and that purpose only, as the proprietor himself. No employee or person other than the subscriber's has any right whatever to the use of the lines free of charge.

This may seem arbitrary, but when you take into consideration the fact that every time a subscriber lets a non-subscriber use his telephone to communicate with some friend in another town, he is using that line—more than likely—to the exclusion of some business man who has already paid for the use of that line, and should have it. Therefore, if our patrons will remember this, and when a non-subscriber asks for the use of the toll lines, tell them that the toll lines are not free to the world, we will do our part to give you—our subscriber—a prompt and efficient service. Our switch-board girls will, in the future, ask the party who wishes to talk out of town, whether they are subscribers or not, or whether the business is to be transacted for the subscriber—wherever they are not familiar with the voice—and if they are found not to be a subscriber, and the subscriber insists upon their using the line, the toll will be charged up to that 'phone number. In this way, and this way only, can we ever expect to give prompt service to those who pay for it.

Prompt service is what you de-

mand of us. Comply with this most reasonable request and you will get it. Respectfully submitted,

THE COLUMBIANA COUNTY TELEPHONE COMPANY,

S. C. THAYER, President.

## THE BASIS OF REPRESENTATION

Considerable Difference of Opinion as to What Shall Be Under New Census.

### THERE IS A GENERAL DESIRE

That House of Representatives Shall Not Be Increased Beyond Present Membership

### HOW IT IS ALL FIGURED OUT

There is considerable difference of opinion as to the basis of representation under the new census. There is a general desire that the house of representatives shall not be increased beyond the present membership, which is 357, Utah having been admitted to statehood since the passage of the present apportionment act, which necessarily added one representative to the number fixed by the act.

Under the first apportionment the basis of representation was fixed at 30,000 inhabitants, which gave the house a membership of 65. This increased under each successive apportionment, the tenth census, which was taken in 1880, fixing the basis at one representative for each 151,911 of population, and making the membership of the house 325. Under the census of 1890 the ratio was increased, making the basis of representation 173,901, and the membership of the house 356.

To continue the present membership of the house would require the basis of representation to be fixed at 209,000. If that figure should be adopted there would be changes in the representation of several of the states, some of them losing and others gaining members. At 194,000, it is estimated that no state would lose members, but the membership of the house would be considerably increased, which is not desirable for several good reasons. In the first place, the house as now constituted is found to be almost too large for the expeditious conduct of business, and in the second place, the hall will not accommodate a larger number without material changes in its constructions and methods of doing business. If the basis should be fixed at 200,000 there would be an increase of about 18.

### COLD SCHOOL ROOMS.

There Was a Great Deal of Complaint During Last Winter.

Last year there was a great deal of complaint from parents of school children that their children were compelled to remain in school when the temperature of the rooms was altogether too low.

In some rooms last year school was continued in session when the temperature was not quite 50 degrees, and it is deemed expedient that the board of education fix a heat at which school shall be dismissed, in order that such a state of affairs shall not exist this year.

It is also stated on good authority that the board of health may look into the matter, as it is deemed very detrimental to the health of children to keep them in a cold room for any length of time.

Superintendent Rayman when interviewed in regard to the matter stated that rooms were not supposed to be kept below 65 degrees, but naturally the temperature would run down while the children were congregating in the room, but would not remain below 65 degrees very long.

In the opinion of eminent physicians of the city the temperature of the rooms should never be permitted to remain below 60 degrees, and when it does it is time to dismiss school.

Yesterday school was dismissed at one of the rooms at the new Helena building, and it is held that such dismissals should take place in every building in the city just as promptly when the temperature becomes too low.

When the last attack came on I went to the W. & W. pharmacy and got a box of Doan's Kidney Pills. In a very short time I was relieved. My husband, who is a painter, decorator and paper hanger of the firm of Purton & Jackson, was seized with a severe attack of kidney complaint. Some years ago he contracted a fever, which left his kidneys in bad shape, and ever afterwards he had more or less trouble. When suffering last a gentleman advised him to try Doan's Kidney Pills, emphasizing the fact that he had been a sufferer from kidney disease, confined to his bed; his physician informed him that perhaps he would be able to get him up in two or three weeks; that he used Doan's Kidney Pills and in a day or two he was able to be up and about his business. My husband got a box at once. They were prompt in relieving him. We can heartily recommend Doan's Kidney Pills."

The last few days of the season will see unusual activity, and all who can will leave the city for the sport that remains. Phenomenal bags of game have not been reported from any part of the county.

### Christmas Goods.

Our stock of Christmas goods in sterling silver, plated ware, knives and forks, cut glass and art pottery ware is now almost complete. We invite you to call early and inspect the most complete line in this city at the Eagle Hardware Co.

### COUNCIL

Will Probably Spend Some Time Talking It All Over This Evening.

Council will meet this evening, and there is every prospect that a long session will be held, as the councilmen have not had a chance for a long time to indulge in any discussion.

### HOW IT'S BACKED.

Undoubted Reliability is Expressed in East Liverpool In-dorsement.

What you want is home in-dorsement.

The backing of people you know. East Liverpool proof for East Liverpool people.

That's what follows here; Surely no better backing can be had than the following:

Mrs. Edmund Purton, of 233 Ravine street, says: "I had backache, headache and other symptoms of the complaint for two years. When the last attack came on I went to the W. & W. pharmacy and got a box of Doan's Kidney Pills. In a very short time I was relieved. My husband, who is a painter, decorator and paper hanger of the firm of Purton & Jackson, was seized with a severe attack of kidney complaint. Some years ago he contracted a fever, which left his kidneys in bad shape, and ever afterwards he had more or less trouble. When suffering last a gentleman advised him to try Doan's Kidney Pills, emphasizing the fact that he had been a sufferer from kidney disease, confined to his bed; his physician informed him that perhaps he would be able to get him up in two or three weeks; that he used Doan's Kidney Pills and in a day or two he was able to be up and about his business. My husband got a box at once. They were prompt in relieving him. We can heartily recommend Doan's Kidney Pills."

Sold for 50 cents per box by all dealers. Foster-Milburn & Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name, Doan's, and take no other.

## RUM MADDENED.

"And he shot with intent to kill." This is the charge against the colored man who made use of a revolver in this city the other night. And the further statement was adduced at a hearing: "He was maddened by the use of intoxicants." There is a whole history connected with the above few lines. Fill the background in for yourselves. The nation at large is awaking to the fact that the liquor traffic is an unmitigated evil and curse, and that the saloon is an absolute menace to the prosperity and existence of this great republic.

## CITY COUNCIL.

"Will our city dads take any action tonight respecting the inefficiency of the East Liverpool Street Railway company?" This is the query of patrons on every hand, especially those who reside in Wellsville and in the East End, in company with workmen who find it necessary to make use of the street cars in going to and from their work. East Enders are especially indignant, and their complaints are long and loud. A reliable lady resident of East End informs us that she found it necessary this morning to make three changes in cars in order to reach her destination in the Diamond. If the word of good citizens can be relied upon, the service has degenerated into a farce.

## THE FOOL KILLER.

If the fool killer had been present at the M. P. church the other night, he would have had a splendid target, at short range, at the fellow who made himself an object of contempt and ridicule. This same fellow made a bigger fool of himself than nature intended, a short time since at a political meeting. He is evidently under the impression that he is a holy terror, a bad man from Kalamazoo, a gallow from Bluffville, Chatter county, Cheek township, as he tried to bluff the judges at the polls at the late election, and vote from the standpoint of unadulterated gall; but he was called down to the queen's taste by our townsman, J. H. Burgess. The fellow is breeding trouble for himself, and don't seem to possess sense enough to get in out of the cold.

## EAST END.

### THE GIRLS

Don't Like Each Other And When They Meet There is Trouble.

For some time past two employees of the East End pottery have been annoyed by several other girls residing in the East End. Scarcely a day passes that they don't come together, and when this occurs the language used during the encounter is much more forcible than elegant.

Complaint has been made to the authorities by the two girls from down town, but the annoyance went on just the same.

Yesterday complaint was made to the mayor, who suggested that they go before a justice of the peace and have a peace warrant issued, but this did not suit the parties interested in the girls, so an attorney was consulted.

It is likely that some interesting developments will follow.

### A DRUNKEN MAN

Annoyed the Residents of East End And Then Escaped Arrest.

A drunken man annoyed the residents of East End for some time last night and despite the fact that Officer Hamilton was after him, succeeded in eluding the officer.

The fellow came from Mulberry street through the alley to First avenue, and when about half way across fell in the mud. His clothes were completely covered, and after cleaning them the best he could went down First avenue to the run, where, in an attempt to cross the stream, he fell in. This was the last seen of the man.

#### Libby Cut Glass.

Brighten up your Thanksgiving dinner table with a piece of Libby cut glass. None finer. Sold only at the Eagle Hardware Co.

### NO LIGHT.

The Service in the East End is Not the Best in the World.

The light service in East End is still very bad, and last night scarcely half of the lights in this section were lighted. The arc light on First avenue, opposite the fire station, was out all last night. The people at the power house were informed, and when the employee arrived the light had started to burn. This was about 9 o'clock. He had not gone 10 minutes when it again went out and remained so all night.

With the streets in their present condition it is extremely difficult to get about after night with no lights.

#### A Keen Edge.

### SWAN SAYS

That a Local Paper Didn't Tell the Truth in Regard to His Accident.

Yesterday a local paper printed a story in regard to Charles Swan coming in contact with a live wire at the corner of Seventh and Jackson streets.

Swan called at the News Review office today and said the item was wrong in details. He says he is 21 years of age instead of 22, and lives with his wife and not his mother; that there was no examination made; that he was not burned; that he walked into the barn himself and walked home after he had sufficiently recovered.

He says the steel rod of his umbrella came in contact with the wire, stunning him and he fell across the wire and was thrown fully 12 feet.

### NEW OFFICERS

### THE COAL FLEET

OF THE TOW BOAT MONT CLAIR RELEASED AT ROCHESTER

This Morning Was Not Recovered Until it Reached a Point Below This City.

The tow boat Mont Clair let go her tow of five barges at Rochester early this morning for the purpose of lowering her stacks to get under the bridge, but the entire fleet got away and was not recovered until Jethro was reached.

The barges were seen approaching and E. S. Good and three other men secured a skiff on the Southside for the purpose of rescuing the runaway. They succeeded in getting a line out to the fleet, and with a great deal of difficulty secured the line to some willows at the mouth of the run below Allison's grocery.

When the full weight of the barges came upon the line it was torn loose from its fastening and the barges got away.

In the confusion one of Good's companions fell overboard and came near being drowned.

The Mont Clair caught the outfit shortly afterward opposite Jethro and the boat continued its journey.

#### His Horse Dragged Him.

James Gibson had an encounter with his horse yesterday afternoon, and the horse came out first best. Gibson was dragged all over the lot, and when the animal was through with this operation he started across the run. When the pair emerged from the pool on the other side Gibson was soaked completely.

He states he is not opposed to emersion, but had he his own way about it a more temperate climate would be selected for the operation.

#### He is Better.

Samuel Swearingen, who has been ill for a long time, underwent an operation yesterday. Dr. Lewis operated upon the sick man and it was very successful.

The old gentleman is much better today, and is now in a fair way to recovery.

#### Oyster Supper.

The Chester council, American Mechanics, will tonight hold an oyster supper and social. A large number of guests will be present and a pleasant time is anticipated.

#### Pump Under Water

The pump at the Chester water works is under water and no work is being done there today.

### THE FORFEIT COVERED.

Arrangements Were Made Last Night for the Game Between the National Guards and Royal Tigers.

Manager Williams and "Pokey" Little, of the National Guards football club, paid a visit to East End last night, and while there placed a \$25 forfeit in the hands of Dr. F. F. Davis, of St. George street.

All arrangements were there made for the game between the Royal Tigers and the Nationals. It was agreed that the game should be played on Thursday, December 6, at Rock Springs, and none but those participating in the former game will be permitted to play.

There is at least one man who has stated that he will not play and he will be replaced by some one of the subs on that team's list.

It is needless to state that both teams will begin active practice at once.

### THE GIRLS

Don't Like Each Other And When They Meet There is Trouble.

For some time past two employees of the East End pottery have been annoyed by several other girls residing in the East End. Scarcely a day passes that they don't come together, and when this occurs the language used during the encounter is much more forcible than elegant.

Complaint has been made to the authorities by the two girls from down town, but the annoyance went on just the same.

Yesterday complaint was made to the mayor, who suggested that they go before a justice of the peace and have a peace warrant issued, but this did not suit the parties interested in the girls, so an attorney was consulted.

It is likely that some interesting developments will follow.

### A DRUNKEN MAN

Annoyed the Residents of East End And Then Escaped Arrest.

A drunken man annoyed the residents of East End for some time last night and despite the fact that Officer Hamilton was after him, succeeded in eluding the officer.

The fellow came from Mulberry street through the alley to First avenue, and when about half way across fell in the mud. His clothes were completely covered, and after cleaning them the best he could went down First avenue to the run, where, in an attempt to cross the stream, he fell in. This was the last seen of the man.

In the confusion one of Good's companions fell overboard and came near being drowned.

The Mont Clair caught the outfit shortly afterward opposite Jethro and the boat continued its journey.

### His Horse Dragged Him.

James Gibson had an encounter with his horse yesterday afternoon, and the horse came out first best. Gibson was dragged all over the lot, and when the animal was through with this operation he started across the run. When the pair emerged from the pool on the other side Gibson was soaked completely.

He states he is not opposed to emersion, but had he his own way about it a more temperate climate would be selected for the operation.

### He is Better.

Samuel Swearingen, who has been ill for a long time, underwent an operation yesterday. Dr. Lewis operated upon the sick man and it was very successful.

The old gentleman is much better today, and is now in a fair way to recovery.

### Oyster Supper.

The Chester council, American Mechanics, will tonight hold an oyster supper and social. A large number of guests will be present and a pleasant time is anticipated.

### Pump Under Water

The pump at the Chester water works is under water and no work is being done there today.

### THE FORFEIT COVERED.

Arrangements Were Made Last Night for the Game Between the National Guards and Royal Tigers.

Manager Williams and "Pokey" Little, of the National Guards football club, paid a visit to East End last night, and while there placed a \$25 forfeit in the hands of Dr. F. F. Davis, of St. George street.

All arrangements were there made for the game between the Royal Tigers and the Nationals. It was agreed that the game should be played on Thursday, December 6, at Rock Springs, and none but those participating in the former game will be permitted to play.

There is at least one man who has stated that he will not play and he will be replaced by some one of the subs on that team's list.

It is needless to state that both teams will begin active practice at once.

# MARRIED A COUNT.

Philadelphia Girl Allies Herself to a French Nobleman.

## A CREDITOR AFTER ANNA GOULD.

London Man Secures Temporary Injunction to Prevent Trustees Paying Her Money—Effort to Compel Payment of Count's Debts.

Philadelphia, Nov. 27.—Adele, daughter of Dr. Walker F. Atlee, was married to Louis Vicomte de Branges de Bourcia in St. John's Roman Catholic church. Father McPhilomy performing the ceremony.

The bride wore a plain street gown and after the ceremony the couple went direct to Dr. Atlee's country house at Wayne, where they will make their home. An evidence of the vicomte's renunciation of his title is given in the cards sent to friends, bearing the simple words: Mr. and Mrs. Louis de Branges de Bourcia.

New York, Nov. 27.—Justice Fitzgerald, sitting in the supreme court, issued an injunction order on application of Samuel Untermyer, returnable on Monday next, against the Count and Countess Castellane and the Goulds, restraining them from paying to the Countess de Castellane any part of the estate in the hands of the trustees, or from applying any part of the trust fund to the debts of Anna Gould or to her support or that of her children, until the further direction of the court.

The plaintiff is Anton J. Dittmar, who sues as assignee of Asher Wertheimer, a London bric-a-brac dealer.

The complaint contains copies of drafts amounting to upwards of \$385,000, of which \$285,000 and upwards are past due.

It is alleged that Anna Gould has \$18,000,000 held in trust for her by her brothers and sister and that her income is about \$900,000.

It is claimed that \$250,000 a year is all that the count and countess require for their support, and the plaintiff asks that the rest be applied to the count's debts. Other creditors are said to be behind the case, and that it is said to be a test case.

A few weeks ago George J. Gould was appointed guardian for the Countess Castellane in a proceeding in the French courts. The creditors claim that the purpose of this proceeding was to get the property of the Countess de Castellane away from attack by her creditors, so as to enable the Goulds to force settlement of the debts at their own time and on their own terms.

This the Goulds denied in a statement issued for them, and said that neither they nor the courts could touch the principal of Anna Gould's estate, according to the late Jay Gould's will, and that it goes to her children, after her death.

New York, Nov. 27.—Eugene Zimmerman, whose daughter was married to the Duke of Manchester a week or so ago in England, was interviewed here. He said to a reporter:

"I have come here to meet my daughter and her husband. After they have rested here a few days we will go to Cincinnati and a reception will be given at my home. The duke is a bright chap. He's a fine, manly fellow. I like a man who went to work as he did as a newspaper man when he was here. Some of his articles were first rate, too. At no time was I opposed to his marriage to my daughter. Those stories are all moonshine."

"Is it true that the duke is in a bad way financially?" asked the reporter.

"I guess there won't be any difficulty about his debts. Not at all. That does not make any difference. I don't care to speak about the marriage portion. That is a private matter. But there won't be any trouble about debts. They will be well, that's all right; all right."

"Is it likely that the duke may settle down in America and enter the railroad business?"

"No, no; the duke is going into British politics. He is entitled to a seat in the house of lords, and he is going to turn his attention to politics."

## DAVIS' PATHETIC HOPE

Thinks He Is Needed In Senate For a Few Years.

## HIS FAMILY AWAITS THE END.

Physicians Practically Admit That So Far as Any Human Agency Can Know, Death Is Certain—Difficulty In Administering the Necessary Medicine.

St. Paul, Nov. 27.—Reports from the bedside of United States Senator Cushman K. Davis were that his strength was slowly ebbing away. His physicians do not anticipate dissolution immediately, but practically admit that so far as any human agency is able to know, death is certain. The family have all along been buoyed up with a faint hope that the statesman might have greater reserve strength to have at last abandoned even this faint hope and are anxiously awaiting the end.

He was unable to take much nourishment and there was even difficulty in administering the necessary medicines. His wife, parents and sisters kept close at hand, and all that could be done to alleviate his suffering was done. When not delirious he sank into a stupor and seemed hardly conscious of what was passing about him. In his moments of semi-consciousness the senator will exclaim about his desire to live and express his wish for a few years more life, as he feels he is needed in the senate. His attendants are much effected with the earnestness with which he states his belief in the necessity for him on the floor of the senate.

## BISHOP HALE VERY ILL.

His Death Expected—Has Been Suffering For Several Years With Heart Trouble.

# MARRIED A COUNT.

Philadelphia Girl Allies Herself to a French Nobleman.

## A CREDITOR AFTER ANNA GOULD.

London Man Secures Temporary Injunction to Prevent Trustees Paying Her Money—Effort to Compel Payment of Count's Debts.

Philadelphia, Nov. 27.—Adele, daughter of Dr. Walker F. Atlee, was married to Louis Vicomte de Branges de Bourcia in St. John's Roman Catholic church, Father McPhilomy performing the ceremony.

The bride wore a plain street gown and after the ceremony the couple went direct to Dr. Atlee's country house at Wayne, where they will make their home. An evidence of the vicomte's renunciation of his title is given in the cards sent to friends, bearing the simple words: Mr. and Mrs. Louis de Branges de Bourcia.

New York, Nov. 27.—Justice Fitzgerald, sitting in the supreme court, issued an injunction order on application of Samuel Untermyer, returnable on Monday next, against the Count and Countess Castellane and the Goulds, restraining them from paying to the Countess de Castellane any part of the estate in the hands of the trustees, or from applying any part of the trust fund to the debts of Anna Gould or to her support or that of her children, until the further direction of the court.

The plaintiff is Anton J. Dittmar, who sues as assignee of Asher Werthelmer, a London brie-a-brac dealer.

The complaint contains copies of drafts amounting to upwards of \$385,000, of which \$285,000 and upwards are past due.

It is alleged that Anna Gould has \$18,000,000 held in trust for her by her brothers and sister and that her income is about \$900,000.

It is claimed that \$250,000 a year is all that the count and countess require for their support, and the plaintiff asks that the rest be applied to the count's debts. Other creditors are said to be behind the case, and that it is said to be a test case.

A few weeks ago George J. Gould was appointed guardian for the Countess Castellane in a proceeding in the French courts. The creditors claim that the purpose of this proceeding was to get the property of the Countess de Castellane away from attack by her creditors, so as to enable the Goulds to force settlement of the debts at their own time and on their own terms.

This the Goulds denied in a statement issued for them, and said that neither they nor the courts could touch the principal of Anna Gould's estate, according to the late Jay Gould's will, and that it goes to her children, after her death.

New York, Nov. 27.—Eugene Zimmerman, whose daughter was married to the Duke of Manchester a week or so ago in England, was interviewed here. He said to a reporter:

"I have come here to meet my daughter and her husband. After they have rested here a few days we will go to Cincinnati and a reception will be given at my home. The duke is a bright chap. He's a fine, manly fellow. I like a man who who went to work as he did as a newspaper man when he was here. Some of his articles were first rate, too. At no time was I opposed to his marriage to my daughter. Those stories are all moonshine."

"Is it true that the duke is in a bad way financially?" asked the reporter.

"I guess there won't be any difficulty about his debts. Not at all. That does not make any difference. I don't care to speak about the marriage portion. That is a private matter. But there won't be any trouble about debts. They will be even, that's all right; all right."

"Is it likely that the duke may settle down in America and enter the railroad business?"

"No, no; the duke is going into British politics. He is entitled to a seat in the house of lords, and he is going to turn his attention to politics."

## ADOPTION NOT LIKELY.

Opinion in Washington That Allies' Agreement Will Have to Be Revised.

Not Made Public.

Washington, Nov. 27.—The state department has been informed of the agreement or understanding or preliminary treaty (it is not possible to learn in just what form the matter stands) reached by the foreign ministers at Pekin. Details were not given out, but it may be stated, however, that the arrangement stands a very poor chance of receiving the sanction of all the powers represented in the Pekin conference, unless some material amendments are permitted.

## BEGINS CAMPAIGN FOR 1904.

Prohibitionists Already Collecting Money For the Fray.

Chicago, Nov. 27.—Chairman Stewart of the Prohibition national committee, announced that funds for the campaign of 1904 are already being collected and that it was the intention of the party leaders to make even a more vigorous campaign than the last one.

"More than \$7,000 has already been sent in," said Chairman Stewart, "and this, too, only three or four days after notices had been sent out that we were ready to begin the work. It is the intention of the national committee to effect organization in every precinct of every township in every state, and every state campaign of 1904 will be vigorously fought."

## HIS FAMILY AWAITS THE END.

Physicians Practically Admit That So Far as Any Human Agency Can Know, Death Is Certain—Difficulty In Administering the Necessary Medicine.

St. Paul, Nov. 27.—Reports from the bedside of United States Senator Cushman K. Davis were that his strength was slowly ebbing away. His physicians do not anticipate dissolution immediately, but practically admit that so far as any human agency is able to know, death is certain. The family have all along been buoyed up with a faint hope that the statesman might have greater reserve strength to have at last abandoned even this faint hope and are anxiously awaiting the end.

He was unable to take much nourishment and there was even difficulty in administering the necessary medicines. His wife, parents and sisters kept close at hand, and all that could be done to alleviate his suffering was done. # A RESERVOIR BURST.

Town of Chauncey, O., Was Flooded.

## TWO MEN KILLED AT AKRON.

Storms and Floods Do Great Damage In Ohio—Streams In Western Pennsylvania on Rampage—High Water Expected at Pittsburgh—Fire and Flood at a Village.

Athens, O., Nov. 27.—As a result of the heavy rains the reservoir near Chauncey burst and flooded the town, a mile away. The reservoir covered three acres and was 20 feet deep. A hundred yards of railroad track was washed out and nearly all the residences in Chauncey were flooded. A bill deflecting the course of the water saved the Chauncey mine, where 100 men were at work, from being flooded.

Akron, O., Nov. 27.—The storm cost two lives and did much damage in this city and vicinity. The greatest havoc was among electric wires and the telegraph, telephone and light companies suffered heavily. A number of people received more or less heavy shocks from contact with these wires. The most serious accident occurred on Wooster avenue. Frank Wernet and Louis Rohr were going up street together, when they noticed a telephone wire lying across the street in their path. Both men stooped to pick it up at the same time. The wire had fallen across a light or trolley wire and the men both received a heavy charge of electricity, killing them instantly. Both men caught the wire in their left hand and both their hands burned to a crisp. Wernet was 35 years old and had a family, while Rohr was only 20 years old and single.

Pittsburg, Nov. 27.—Rains at the headwaters of the confluent Monongahela and Allegheny rivers had swollen their currents above the danger line of 22 feet along the local fronts, and the full volume of the rise is yet impetuously swirling toward the city. Frank Ridgeway, United States forecaster at the weather bureau, at 10:30 o'clock last night stuck to his prediction that the ultimate stage of the waters will be from 25 to 26 feet, though at that hour the marks at the Sixteenth street bridge in the Allegheny showed 23 feet 9 inches, and the Market street gauge in Pittsburg stood at 23 feet, with both rivers rising at the rate of six inches an hour. Frank S. Glaser, who manages the transportation of the coal barges for the Monongahela coal combine, said the stage seen this morning would be from 29 to 28 feet, and he was conceded to be an authority.

Charleston, W. Va., Nov. 27.—Rainfall caused a rapid rise in all streams in this section of the state. The Kanawha has almost reached the danger line here and people in the lowlands are already moving out.

Columbus, O., Nov. 27.—The damage done throughout the state by the storm will reach thousands. At Chagrin Falls the telephone switchboard burned out and set half a dozen houses on fire. At Cambridge several buildings were blown down and at Batavia Miss Annie Hurd was drowned, driving into a stream where a bridge had washed out. The Ohio river and Southern Ohio streams are rising rapidly. Wires are down in all directions and trains are delayed.

Middleboro, Ky., Nov. 27.—Cumberland, Powell and Clinch rivers have overflowed their banks, doing immense damage to farmers. The lower portion of Powell valley is inundated and those living along its banks have been compelled to move to higher ground. Ben Turner, of Middleboro, was drowned in the flood while trying to swim his horse across Yellow creek.

Williamsport, Pa., Nov. 27.—At the village of Cross Forks, on the Clinton and Potter county lines, a man started a fire in a sheet iron stove and left the house. A blaze resulted and before it was stopped five stores and dwellings combined, two barns and an ice house were destroyed and the entire town would have gone had it not been for the rain. The loss is \$75,000 and there is some insurance. The town has no fire protection. To the terror of the occasion was added wholesale thieving of the goods rescued from the flames.

Scarcely had the excitement subsided when the biggest flood ever known in the vicinity struck the town. It covered all the low lands and carried away two bridges on the Buffalo and Susquehanna railroad. The tramway of the Lackawanna Lumber company was so badly damaged that it will require a week to repair.

Wellington's Name Omitted.

Washington, Nov. 27.—In making up the Republican caucus list of the senate the name of Senator Wellington, of Maryland, has been omitted at his own request. He has chosen a seat on the Republican side, however.

A Break In Erie Canal.

Rome, N. Y., Nov. 27.—A break occurred in the 60-mile level of the Erie canal, about four miles west of here. One hundred feet of the bank went out and the water rushed down on the flats.

## A DAY IN WALL STREET.

Movements In Some Railroads and Some Other Stocks—Some Points In Bond Market.

New York, Nov. 27.—The reactionary tendency which weighed on the stock market during the latter part of last week was distinctly overcome Monday, and prices resumed their upward course. The advance was by no means uniform, the striking gains being confined comparatively to few stocks.

Bear manipulation was evident not only here, but in foreign markets. A settlement is in progress on the London stock exchange and in Berlin. London was a large buyer in this market, sales to that account being estimated at 30,000 shares. The southern railway stocks were in general demand. The common and preferred stocks advanced an extreme 3 points each. Strength was radiated first to the southern group and then to the southwestern, in which some striking gains were recorded. Both the preferred stocks, on which dividends are paid or are earned, and the low priced common stocks, for which dividend prospects are remote at the best, were effected alike. Gains in the group ran from 1 to nearly 3 points. The more northerly grangers came into the movement, especially Burlington, but did not show such marked strength. The leading specialties were very strong, including Sugar and People's Gas. The local tractions showed a good recovery and Consolidated Gas was conspicuous with a rise of 4 1/4. The steel stocks were decidedly unsettled. Steel and Wire showing acute weakness at times. Reports were current of serious controversies between the great combinations in the trade. Amalgamated Copper gave way on account of the meager details of the conditions and resources of the company contained in the statement to the stock exchange to secure the admission of the stocks to the unlisted department. The drop in this stock and a disposition to realize made the tone of the closing unsettled and prices were below the best, but the gains in the railroads were well maintained.

There was very large buying of St. Louis Southwestern bonds. The market otherwise was strong and quite active. Total sales, par value, \$4,130,000.

United States refunded 2s when issued and the 5s advanced 3 1/4 and the 8s 3 1/4 per cent on the last call.

## LACEMAKERS ADMITTED.

Government Allowed Those Secured by John Alexander Dowie to Enter the Country.

Washington, Nov. 27.—Commissioner General Powderly, in the course of his letter to the commissioner of immigration, directing that the lace makers secured by John Alexander Dowie be admitted, said:

"It appears that it is the purpose of Dr. John A. Dowie, who had arranged with the appellants to come over with the purpose to secure their services in the manufacture—not only of lace, but also of the thread from which such lace is to be made. Although lacemaking in some of its branches has been carried on in this country for some years, heretofore it seems to have been the practice to import the thread used in such establishments.

"The department is of opinion that said industry is a new one, not established, and as it is not claimed or shown by the representatives of the lace makers' union that labor could have been obtained in this country to prosecute the industry, there is apparently no violation of the alien contract labor law."

It is held that the immigrants come within the law's exception. It is also held they are not only likely to become public charges.

Altoona Bonds Declared Valid.

Hollidaysburg, Nov. 27.—Judge Martin Bell, in the Blair county court, handed down a decree declaring valid an issue of bonds aggregating \$229,000, which the city of Altoona had issued to cover costs of street improvements.

Wellington's Name Omitted.

Washington, Nov. 27.—In making up the Republican caucus list of the senate the name of Senator Wellington, of Maryland, has been omitted at his own request. He has chosen a seat on the Republican side, however.

A Break In Erie Canal.

Rome, N. Y., Nov. 27.—A break occurred in the 60-mile level of the Erie canal, about four miles west of here. One hundred feet of the bank went out and the water rushed down on the flats.

## Republicans Did Not Accept.

St. Paul, Nov. 27.—The Republican state executive committee considered the proposal of Democratic Chairman L. A. Rosing for a recount in eight counties, four to be selected by each side. After the meeting Secretary C. C. Whitney sent a reply to Chairman Rosing declining to accept the proposition. The committee holds that it has no power to enter into such an agreement, and, moreover, that there is no authority for such a partial recount.

## Issue Between Turkey and America.

Washington, Nov. 27.—The issue between the state department and Turkey over the withholding of an exequatur to Dr. Thomas H. Norton, to be consul at Harpoot, has passed into the controversial stage, and the indications are that it will be weeks before the matter is settled.

## Sullivan's Remains to Be Interred Today.

London, Nov. 27.—The remains of Sir Arthur Sullivan, the composer, who died suddenly Thursday morning last, at his home here, will be buried today in St. Paul's cathedral

## Bishop Potter Forwards Evidence.

New York, Nov. 27.—Mayor Van Wyck received a letter from Bishop Potter, saying that the statements made by the Rev. Messrs. Paddock and George regarding insulting language used to them by certain police officials would be sworn to and forwarded to the mayor. These statements were requested by the police board several days ago, presumably for use in connection with the trials of Inspector Cross and Captain Herlihy.

## Chartered at Harrisburg.

Harrisburg, Nov. 27.—Charters were issued at the state department in part as follows. The New Castle and Beaver Falls Street Railway company, from New Castle to Beaver Falls; capital, \$100,000. Waynesburg Brewing company, Waynesburg, Greene county; capital, \$25,000. Turkey Creek Valley and Wilmerding Land company, Wilmerding; capital, \$60,000.

## King Oscar Improving.

Stockholm, Nov. 27.—King Oscar is steadily improving. He took a long walk in the Royal garden.

# A RESERVOIR BURST.

Town of Chauncey, O., Was Flooded.

## TWO MEN KILLED AT AKRON.

Storms and Floods Do Great Damage In Ohio—Streams In Western Pennsylvania on Rampage—High Water Expected at Pittsburgh—Fire and Flood at a Village.

Athens, O., Nov. 27.—As a result of the heavy rains the reservoir near Chauncey burst and flooded the town, a mile away. The reservoir covered three acres and was 20 feet deep. A hundred yards of railroad track was washed out and nearly all the residences in Chauncey were flooded. A hill deflecting the course of the water saved the Chauncey mine, where 100 men were at work, from being flooded.

Akron, O., Nov. 27.—The storm cost two lives and did much damage in this city and vicinity. The greatest havoc was among electric wires and the telegraph, telephone and light companies suffered heavily. A number of people received more or less heavy shocks from contact with these wires. The most serious accident occurred on Wooster avenue. Frank Wernet and Louis Rohr were going up street together, when they noticed a telephone wire lying across the street in their path. Both men stooped to pick it up at the same time. The wire had fallen across a light or trolley wire and the men both received a heavy charge of electricity, killing them instantly. Both men caught the wire in their left hand and both their hands burned to a crisp. Wernet was 35 years old and had a family, while Rohr was only 20 years old and single.

Pittsburg, Nov. 27.—Rains at the headwaters of the confluent Monongahela and Allegheny rivers had swollen their currents above the danger line of 22 feet along the local fronts, and the full volume of the rise is yet impetuously swirling toward the city. Frank Ridgeway, United States forecaster at the weather bureau, at 10:30 o'clock last night stuck to his prediction that the ultimate stage of the waters will be from 25 to 26 feet, though at that hour the marks at the Sixteenth street bridge in the Allegheny showed 23 feet 9 inches, and the Market street gauge in Pittsburg stood at 23 feet, with both rivers rising at the rate of six inches an hour. Frank S. Glaser, who manages the transportation of the coal barges for the Monongahela coal combine, said the stage seen this morning would be from 20 to 28 feet, and he was conceded to be an authority.

Charleston, W. Va., Nov. 27.—Rainfall caused a rapid rise in all streams in this section of the state. The Kanawha has almost reached the danger line here and people in the lowlands are already moving out.

Columbus, O., Nov. 27.—The damage done throughout the state by the storm will reach thousands. At Chagrin Falls the telephone switchboard burned out and set half a dozen houses on fire. At Cambridge several buildings were blown down and at Batavia Miss Annie Hurd was drowned, driving into a stream where a bridge had washed out. The Ohio river and Southern Ohio streams are rising rapidly. Wires are down in all directions and trains are delayed.

Middleboro, Ky., Nov. 27.—Cumberland, Powell and Clinch rivers have overflowed their banks, doing immense damage to farmers. The lower portion of Powell valley is inundated and those living along its banks have been compelled to move to higher ground. Ben Turner, of Middleboro, was drowned in the flood while trying to swim his horse across Yellow creek.

Williamsport, Pa., Nov. 27.—At the village of Cross Forks, on the Clinton and Potter county lines, a man started a fire in a sheet iron stove and left the house. A blaze resulted and before it was stopped five stores and dwellings combined, two barns and an ice house were destroyed and the entire town would have gone had it not been for the rain. The loss is \$75,000 and there is some insurance. The town has no fire protection. To the terror of the occasion was added wholesale thievery of the goods rescued from the flames.

Scarcely had the excitement subsided when the biggest flood ever known in the vicinity struck the town. It covered all the low lands and carried away two bridges on the Buffalo and Susquehanna railroad. The tramway of the Lackawanna lumber company was so badly damaged that it will require a week to repair.

## A DAY IN WALL STREET.

Movements In Some Railroads and Some Other Stocks—Some Points In Bond Market.

New York, Nov. 27.—The reactionary tendency which weighed on the stock market during the latter part of last week was distinctly overcome Monday, and prices resumed their upward course. The advance was by no means uniform, the striking gains being confined comparatively to few stocks.

Bear manipulation was evident not only here, but in foreign markets. A settlement is in progress on the London stock exchange and in Berlin. London was a large buyer in this market, sales to that account being estimated at 30,000 shares. The southern railway stocks were in general demand. The common and preferred stocks advanced an extreme 3 points each. Strength was radiated first to the southern group and then to the southwestern, in which some striking gains were recorded. Both the preferred stocks, on which dividends are paid or are earned, and the low priced common stocks, for which dividend prospects are remote at the best, were effected alike. Gains in the group ran from 1 to nearly 3 points. The more northerly granglers came into the movement, especially Burlington, but did not show such marked strength. The leading specialties were very strong, including Sugar and People's Gas. The local tractions showed a good recovery and Consolidated Gas was conspicuous with a rise of 4 1/4. The steel stocks were decidedly unsettled. Steel and Wire showing acute weakness at times. Reports were current of serious controversies between the great combinations in the trade. Amalgamated Copper gave way on account of the meager details of the conditions and resources of the company contained in the statement to the stock exchange to secure the admission of the stocks to the unlisted department. The drop in this stock and a disposition to realize made the tone of the closing unsettled and prices were below the best, but the gains in the railroads were well maintained.

United States refunded 2s when issued and the 5s advanced 3/4 and the 3s 3/4 per cent on the last call.

## LACEMAKERS ADMITTED.

Government Allowed Those Secured by John Alexander Dowie to Enter the Country.

Washington, Nov. 27.—Commissioner General Powderly, in the course of his letter to the commissioner of immigration, directing that the lacemakers secured by John Alexander Dowie be admitted, said:

"It appears that it is the purpose of Dr. John A. Dowie, who had arranged with the appellants to come over with the purpose to secure their services in the manufacture—not only of lace, but also of the thread from which such lace is to be made. Although lacemaking in some of its branches has been carried on in this country for some years, heretofore it seems to have been the practice to import the thread used in such establishments.

"The department is of opinion that said industry is a new one, not established, and as it is not claimed or shown by the representatives of the lace makers' union that labor could have been obtained in this country to prosecute the industry, there is apparently no violation of the alien contract labor law."

It is held that the immigrants come within the law's exception. It is also held they are not only likely to become public charges.

Altoona Bonds Declared Valid.

Hollidaysburg, Nov. 27.—Judge Martin Bell, in the Blair county court, handed down a decree declaring valid an issue of bonds aggregating \$229,000, which the city of Altoona had issued to cover costs of street improvements.

Wellington's Name Omitted.

Washington, Nov. 27.—In making up the Republican caucus list of the senate the name of Senator Wellington, of Maryland, has been omitted at his own request. He has chosen a seat on the Republican side, however.

A Break In Erie Canal.

Rome, N. Y., Nov. 27.—A break occurred in the 60-mile level of the Erie canal, about four miles west of here. One hundred feet of the bank went out and the water rushed down on the flats.

## Republicans Did Not Accept.

St. Paul, Nov. 27.—The Republican state executive committee considered the proposal of Democratic Chairman L. A. Rosing for a recount in eight counties, four to be selected by each side. After the meeting Secretary C. C. Whitney sent a reply to Chairman Rosing declining to accept the proposition. The committee holds that it has no power to enter into such an agreement, and, moreover, that there is no authority for such a partial recount.

## Issue Between Turkey and America.

Washington, Nov. 27.—The issue between the state department and Turkey over the withholding of an exequatur to Dr. Thomas H. Norton, to be consul at Harpoot, has passed into the controversial stage, and the indications are that it will be weeks before the matter is settled.

## Sullivan's Remains to Be Interred Today.

London, Nov. 27.—The remains of Sir Arthur Sullivan, the composer, who died suddenly Thursday morning last, at his home here, will be buried today in St. Paul's cathedral.

## Bishop Potter Forwards Evidence.

New York, Nov. 27.—Mayor Van Wyck received a letter from Bishop Potter, saying that the statements made by the Rev. Messrs. Paddock and George regarding insulting language used to them by certain police officials would be sworn to and forwarded to the mayor. These statements were requested by the police board several days ago, presumably for use in connection with the trials of Inspector Cross and Captain Herlihy.

## Chartered at Harrisburg.

Harrisburg, Nov. 27.—Charters were issued at the state department in part as follows. The New Castle and Beaver Falls Street Railway company, from New Castle to Beaver Falls; capital, \$100,000. Waynesburg Brewing company, Waynesburg, Greene county; capital, \$25,000. Turkey Creek Valley and Wilmerding Land company, Wilmerding; capital, \$60,000.

## The Welcome

At the door from a happy, healthy wife, is something which the husband looks forward to all through the day's labor. He may be tired, but his step lightens and his face brightens as he quickens his pace to receive the smiling welcome of his wife. What a difference in the home-coming of the man whose wife is nervous and gloomy, having neither heart nor strength to be glad. Many such a husband has worked a transformation in his home-life by learning of the cures performed by Dr. Pierce's Favorite Prescription.

It cures diseases of the delicate organs, builds up the nerves, induces refreshing sleep, and transforms the sickly woman into the happy helpmeet.

There is no alcohol in "Favorite Prescription" and it is absolutely free from opium, cocaine, and all other narcotics.

"My wife was sick for over eight years," writes Albert H. Full, Esq., of Altamont, Grundy Co., Tenn. "She had uterine disease and was treated by two physicians, but got no relief. At last I read in one of your Memorandum Books, about Dr. Pierce's medicines, and we decided to try his 'Favorite Prescription.' I sent to the drug store and got one bottle, and the first dose gave ease and sleep. She had not slept any for three nights. Being sure that it would cure her I sent for five more bottles, and when she had taken the sixth bottle she was sound and well. We now have a fine boy at our house."

"FAVORITE PRESCRIPTION" MAKES WEAK WOMEN STRONG AND SICK WOMEN WELL.

# A RESERVOIR BURST.

Town of Chauncey, O., Was Flooded.

## TWO MEN KILLED AT AKRON.

Storms and Floods Do Great Damage In Ohio—Streams In Western Pennsylvania on Rampage—High Water Expected at Pittsburgh—Fire and Flood at a Village.

Athens, O., Nov. 27.—As a result of the heavy rains the reservoir near Chauncey burst and flooded the town, a mile away. The reservoir covered three acres and was 20 feet deep. A hundred yards of railroad track was washed out and nearly all the residences in Chauncey were flooded. A hill deflecting the course of the water saved the Chauncey mine, where 100 men were at work, from being flooded.

Akron, O., Nov. 27.—The storm cost two lives and did much damage in this city and vicinity. The greatest havoc was among electric wires and the telegraph, telephone and light companies suffered heavily. A number of people received more or less heavy shocks from contact with these wires. The most serious accident occurred on Wooster avenue. Frank Wernet and Louis Rohr were going up street together, when they noticed a telephone wire lying across the street in their path. Both men stooped to pick it up at the same time. The wire had fallen across a light or trolley wire and the men both received a heavy charge of electricity, killing them instantly. Both men caught the wire in their left hand and both their hands burned to a crisp. Wernet was 35 years old and had a family, while Rohr was only 20 years old and single.

Pittsburgh, Nov. 27.—Rains at the headwaters of the confluent Monongahela and Allegheny rivers had swollen their currents above the danger line of 22 feet along the local fronts, and the full volume of the rise is yet impetuously swirling toward the city. Frank Ridgeway, United States forecaster at the weather bureau, at 10:30 o'clock last night stuck to his prediction that the ultimate stage of the waters will be from 25 to 26 feet, though at that hour the marks at the Sixteenth street bridge in the Allegheny showed 23 feet 9 inches, and the Market street gauge in Pittsburgh stood at 23 feet, with both rivers rising at the rate of six inches an hour. Frank S. Glaser, who manages the transportation of the coal barges for the Monongahela coal combine, said the stage seen this morning would be from 20 to 28 feet, and he was conceded to be an authority.

Charleston, W. Va., Nov. 27.—Rainfall caused a rapid rise in all streams in this section of the state. The Kanawha has almost reached the danger line here and people in the lowlands are already moving out.

Columbus, O., Nov. 27.—The damage done throughout the state by the storm will reach thousands. At Chagrin Falls the telephone switchboard burned out and set half a dozen houses on fire. At Cambridge several buildings were blown down and at Batavia Miss Annie Hurd was drowned, driving into a stream where a bridge had washed out. The Ohio river and Southern Ohio streams are rising rapidly. Wires are down in all directions and trains are delayed.

Middleboro, Ky., Nov. 27.—Cumberland, Powell and Clinch rivers have overflowed their banks, doing immense damage to farmers. The lower portion of Powell valley is inundated and those living along its banks have been compelled to move to higher ground. Ben Turner, of Middleboro, was drowned in the flood while trying to swim his horse across Yellow creek.

Williamsport, Pa., Nov. 27.—At the village of Cross Forks, on the Clinton and Potter county lines, a man started a fire in a sheet iron stove and left the house. A blaze resulted and before it was stopped five stores and dwellings combined, two barns and an ice house were destroyed and the entire town would have gone had it not been for the rain. The loss is \$75,000 and there is some insurance. The town has no fire protection. To the terror of the occasion was added wholesale thieving of the goods rescued from the flames.

Scarcely had the excitement subsided when the biggest flood ever known in the vicinity struck the town. It covered all the low lands and carried away two bridges on the Buffalo and Susquehanna railroad. The tramway of the Lackawanna Lumber company was so badly damaged that it will require a week to repair.

## A DAY IN WALL STREET.

Movements In Some Railroads and Some Other Stocks—Some Points In Bond Market.

New York, Nov. 27.—The reactionary tendency which weighed on the stock market during the latter part of last week was distinctly overcome Monday, and prices resumed their upward course. The advance was by no means uniform, the striking gains being confined comparatively to few stocks.

Bear manipulation was evident not only here, but in foreign markets. A settlement is in progress on the London stock exchange and in Berlin. London was a large buyer in this market, sales to that account being estimated at 30,000 shares. The southern railway stocks were in general demand. The common and preferred stocks advanced an extreme 3 points each. Strength was radiated first to the southern group and then to the southwestern, in which some striking gains were recorded. Both the preferred stocks, on which dividends are paid or are earned, and the low priced common stocks, for which dividend prospects are remote at the best, were effected alike. Gains in the group ran from 1 to nearly 3 points. The more northerly granglers came into the movement, especially Burlington, but did not show such marked strength. The leading specialties were very strong, including Sugar and People's Gas. The local tractions showed a good recovery and Consolidated Gas was conspicuous with a rise of 4%. The steel stocks were decidedly unsettled. Steel and Wire showing acute weakness at times. Reports were current of serious controversies between the great combinations in the trade. Amalgamated Copper gave way on account of the meager details of the conditions and resources of the company contained in the statement to the stock exchange to secure the admission of the stocks to the unlisted department. The drop in this stock and a disposition to realize made the tone of the closing unsettled and prices were below the best, but the gains in the railroads were well maintained.

There was very large buying of St. Louis Southwestern bonds. The market otherwise was strong and quite active. Total sales, par value, \$4,130,000.

United States refunded 2s when issued and the 5s advanced 3/4 and the 3s 3/4 per cent on the last call.

## LACEMAKERS ADMITTED.

Government Allowed Those Secured by John Alexander Dowie to Enter the Country.

Washington, Nov. 27.—Commissioner General Powderly, in the course of his letter to the commissioner of immigration, directing that the lace makers secured by John Alexander Dowie be admitted, said:

"It appears that it is the purpose of Dr. John A. Dowie, who had arranged with the appellants to come over with the purpose to secure their services in the manufacture—not only of lace, but also of the thread from which such lace is to be made. Although lacemaking in some of its branches has been carried on in this country for some years, heretofore it seems to have been the practice to import the thread used in such establishments.

The department is of opinion that said industry is a new one, not established, and as it is not claimed or shown by the representatives of the lace makers' union that labor could have been obtained in this country to prosecute the industry, there is apparently no violation of the alien contract labor law."

It is held that the immigrants come within the law's exception. It is also held they are not only likely to become public charges.

Altoona Bonds Declared Valid.

Hollidaysburg, Nov. 27.—Judge Martin Bell, in the Blair county court, handed down a decree declaring valid an issue of bonds aggregating \$229,000, which the city of Altoona had issued to cover costs of street improvements.

Wellington's Name Omitted.

Washington, Nov. 27.—In making up the Republican caucus list of the senate the name of Senator Wellington, of Maryland, has been omitted at his own request. He has chosen a seat on the Republican side, however.

A Break In Erie Canal.

Rome, N. Y., Nov. 27.—A break occurred in the 60-mile level of the Erie canal, about four miles west of here. One hundred feet of the bank went out and the water rushed down on the flats.

Republicans Did Not Accept.

St. Paul, Nov. 27.—The Republican state executive committee considered the proposal of Democratic Chairman L. A. Rosing for a recount in eight counties, four to be selected by each side. After the meeting Secretary C. C. Whitney sent a reply to Chairman Rosing declining to accept the proposition. The committee holds that it has no power to enter into such an agreement, and, moreover, that there is no authority for such a partial recount.

Issue Between Turkey and America.

Washington, Nov. 27.—The issue between the state department and Turkey over the withholding of an exequatur to Dr. Thomas H. Norton, to be consul at Harpoot, has passed into the controversial stage, and the indications are that it will be weeks before the matter is settled.

Bishop Potter Forwards Evidence.

New York, Nov. 27.—Mayor Van Wyck received a letter from Bishop Potter, saying that the statements made by the Rev. Messrs. Paddock and George regarding insulting language used to them by certain police officials would be sworn to and forwarded to the mayor. These statements were requested by the police board several days ago, presumably for use in connection with the trials of Inspector Cross and Captain Herlihy.

Chartered at Harrisburg.

Harrisburg, Nov. 27.—Charters were issued at the state department in part as follows. The New Castle and Beaver Falls Street Railway company, from New Castle to Beaver Falls; capital, \$100,000. Waynesburg Brewing company, Waynesburg, Greene county; capital, \$25,000. Turtle Creek Valley and Wilmerding Land company, Wilmerding; capital, \$60,000.

King Oscar Improving.

Stockholm, Nov. 27.—King Oscar is steadily improving. He took a long walk in the Royal garden.

Forty-three stone masons passed through the city on the afternoon train yesterday for Braddock, where they will be employed by the Cleveland & Pittsburg railroad company in erecting a new bridge at that place.

Herman McLain, formerly of this city, but now of Pittsburg, returned to that place yesterday after spending Sunday with friends. Herman is raising a mustache and was compelled to make himself known before he was recognized by many of his friends.

A horse attached to a wagon driven by Frank Kennedy got one of its front feet caught in the street car track at the corner of Sixth and West Market streets this afternoon and was thrown to the bricks. Some difficulty was experienced in again placing the animal upon its feet. No damage was done to the wagon and harness, but the horse received a slight cut on the mouth.

## SCHOOL BOARD MET LAST NIGHT

After 45 Minutes Had Been Spent  
In the Office of the  
Superintendent

## DISCUSSING SEVERAL MATTERS

Large Number of Bills Placed on  
Pay Roll and an Explanation Made.

## REGARD TO HELENA SCHOLARS

After some 45 minutes spent in the superintendent's room, in the discussion of various questions the board of education convened at 8:40 o'clock, with Members Vodrey, Murphy, Smith, Hill, Knowles and Wells present.

At the request of Chairman Vodrey, Prof. Rayman opened the meeting by reading the 147th Psalm and offering a brief prayer.

The minutes of November 12 were read by Clerk Hill and on motion of Mr. Murphy were approved.

Several orders of business were passed over until it came to that of the bills and the clerk went over the following:

J. Jones, plumbing	.....	\$ 41 25
G. R. Whattan	.....	9 85
J. H. Beemer	.....	6 00
Kinsey Plumbing Co.	.....	87 27
Kinsey Plumbing Co.	.....	14 50
Ed Cool & Son	.....	15 60
Wilson Stationery Co.	.....	24 33
Given & Co.	.....	28 20
Frank Crook	.....	149 34
American Book Co.	.....	319 22
Lewis Bros.	.....	7 45
John B. Brich	.....	14 00
Hill & Hawkins	.....	1 00
Eagle Hardware Co.	.....	2 17
M. W. Elliott	.....	7 79
Mean's Foundry & Machine Co.	.....	49 80
Eagle Hardware Co.	.....	4 74
Eagle Hardware Co.	.....	83 91
Trump Printing Co.	.....	15 15
W. H. Adams	.....	38 35
F. S. Albright, repairs	.....	6 37

When the bills of the Kinsey Plumbing company were reached some inquiry was made as to what the amount, which aggregated \$101 77, was for, and it was found the work done by this firm belonged to the original contract.

After some discussion it was decided to pay the bill, but the contractors, Peck & Williams, will be charged with a similar amount.

The clerk reported that he had received a bid for the supplying of the hose and other attachments for the Helena building, and, owing to the fact that other and cheaper firms had not been asked to bid, the matter was laid over to give them an opportunity.

Superintendent Rayman took occasion to say that the pupils at the Helena building were not required to eat their lunch in a basement room, but that it had been arranged that the pupils who were required to bring their dinner were compelled to eat the same in one particular department under the supervision of one of the teachers, in order that no crumble be scattered about the floor.

Prof. Rayman also reported that one of the latest improved physical apparatus had been received at a cost of \$350 for the use of the high school, and that, in all, about \$700 had so far been expended for apparatus and books along this line, no part of

which the board would be asked to pay. The high school was amply able to take care of itself in this regard, and the superintendent merely made this statement in order to show to what extent this department had progressed.

The need of an extra teacher for the Helena school had been discussed previous to the convening of the meeting, and when the subject was afterward broached it was moved by Murphy and Wells that the matter of a selection of a teacher be left in the hands of Prof. Rayman, as he was better able to judge of the ability of the applicants and knew just what sort of a person was needed.

President Vodrey remarked that, although it had not been customary to do so, he thought it would be well for an auditing committee to be appointed to go over the books and report back to the board. He thought it was due to every one interested to know how affairs were situated, besides he and the clerk had been discussing the matter and had come to the conclusion, according to Clerk Hill's statement, that the methods of bookkeeping heretofore employed here should be changed. All seemed to be of one mind on this subject, and the chairman appointed Messrs. Wells and Murphy to attend to the work, and they will be expected to report for the year ending November 1, 1900.

Prof. Rayman thought it due the board at this time to say that there had just past three months of the present school year, and he was able to report an unusual interest on the part of both teachers and pupils, and that there had so far this year been more than the usual amount of interest taken in educational work.

On behalf of the teachers of the various schools, Superintendent Rayman invited the board to attend the lecture of G. Stanley Hall, to be delivered at the First Presbyterian church next Thursday evening.

## LIGHT COMMITTEE

### HELD A MEETING WITH MANAGER HEALY YESTERDAY.

### A Long Discussion Was Had in Regard to the Poor Light Service.

The light committee of council met yesterday afternoon in council chamber, all members being present. The meeting convened about 2:30 o'clock, and Mr. Healy, of the electric light company, was present.

Reference was made to the poor service and by way of explanation Mr. Healy stated the company was doing the very best they could to perfect the system, but had been very unfortunate in securing lamps. They had been compelled to return two sets of lamps to the factory on account of poor workmanship.

Each of the various circuits have too many lights at present, and Mr. Healy says they propose to reduce the number of lights on a circuit and increase the number of circuits. It is thought this plan will be a great advantage to the system.

It was decided that the light company should send a representative to city hall each morning to ascertain the number and location of such lights as have been out during the night, so that the entire day can be devoted to their repair.

The matter of the insolence of some of the employees of the company when inquiries were made respecting the reason for the lights being out, was referred to at the meeting, and Mr. Healy requested that such matters be referred to him personally, and he would insure the committee that the offenders should be dealt with as the offense merits.

## MORE ABOUT THE MILLER STORY

### The Alliance Woman Declares She Did Not Give Dr. Beilhart Her Money.

### SAYS SHE IS NOT SICK

### But Went to Lisbon and Engaged In Spiritual Work and Now Says

### SHE IS CONTENTED AND HAPPY

Miss Martha Miller, of Alliance, who is reported to have turned over to Dr. Beilhart, the Lisbon spiritualist, some \$3,000 in cash, in a letter to the Alliance Leader denies the story. Her letter is as follows:

Lisbon, O., Nov. 24, 1900.  
Editor Alliance Leader.

Sir—Will you kindly publish the following facts that your readers, who desire to know the truth, may know it.

In reference to what the Review published in their last Wednesday's paper about me I wish to say:

First, I am not being treated for my health, nor have I been since I left Alliance last spring.

Second, Mr. Beilhart is not a doctor nor has he a sanitarium anywhere. Mr. Beilhart has not used any of my money to "build a fine new residence."

The facts are these: Mr. Beilhart and others are publishing two monthly papers devoted to practical Christianity. This work is founded on Christ's teachings of Free Gift.

I have been acquainted with Mr. Beilhart and his teachings for over four years. I believe in them and have contributed of what I have to assist in the cause. What I give I do of my own choice and have never been asked or demanded by any one to give. Mr. Beilhart never asks any one to help in this work, but allows those who believe as he does, to give if they choose to do so. He devotes all his time to his work without any returns. I have, since last spring, made my home here with a number of others who are working together to further what we believe to be the cause of truth. The "home" and farm are used as a place for those who work in this cause. The proceeds of our material work help to support our work of circulating free literature. My health is better than it has been for years and I am contented with my lot.

MARTHA MILLER.

Enclosed with the communication was a copy of one of Beilhart's publications called "Spirit Fruit," with "Love" as the connecting link. The paper is sent free to every one who asks for it and no advertisements are permitted in its columns.

Following are a couple of clippings from this wonderful paper:

"This paper is to be absolutely separated from money. If you choose to give a gift to the cause it represents, you can be free to choose the amount you wish to give and to whom you wish to give it. Gifts will be received as gifts, and thoughts of thankfulness will flow to the giver. But the paper cannot be bought; it is a free gift to you. We do not believe in buying and selling the truth of Spirit; we leave that to those who think it necessary to live. We do believe in giving and receiving, as a spontaneous action of life and love within us."

"If the spirit in you desires to send a gift of love, either words or approval, love or money, it will be received. Our address is on the first page of the paper. We solicit correspondence with those who have come into life or desire to do so."

So it seems that Miss Miller is following her own inclinations, and while she may be using her money to publish a paper under her "teacher's" direction, she positively denies Beilhart has used her money to build a fine house. Neither does he run a sanitarium. It is just a "spiritual home," and she says "her health is good and she is happy."

### SUES JOHN PORTER TO RECOVER ON PROMISSORY NOTES.

### A Lisbon Man Files an Action for Divorce Against His Wife.

Lisbon, Nov. 27.—(Special)—Robert Hall filed suit in court today against John Porter to recover judgment on three promissory notes, which were given him in April, June and July, 1891, at New Cumberland, W. Va. The total claim is for \$1,050 and certain money in the hands of Hill & Wallace, of East Liverpool owing to Porter will be attached.

Nicholas Pontiere wants a divorce from Angeline Pontiere, to whom he was married in New Juda, Italy, fourteen years ago. Pontiere charges his wife with the crime of adultery with a person whose name is unknown to him, and also says since October 2 last she has lived with a man named Joseph West in Windsper, Pa. The plaintiff is a resident of Lisbon.

Judge W. C. Wells and James A. Martin, of this place, have been appointed by the supreme court as trustees to settle up the affairs of Mt. Hope college.

City council in adjourned session last evening unanimously granted a franchise to the New York parties, represented by H. G. Folts, to construct their street railway lines over Water street in this city, running east to Beaver, thence north to Walnut and down Walnut one block to Market street. The company states that work on the road between here and Salem will be begun within a few weeks.

### WILL CHANGE POLES.

### The Contractor Who Has Charge of Calcutta Road Grading Will Soon Finish Up.

Contractor Robert Gravatt, who has in hand the improving of the upper end of Calcutta road, has his work well in hand and would have completed his part of the contract within a short time had it not been for the bad weather of the last few days.

On Friday the work had progressed to a point where it was necessary to either take down the poles recently erected by the Columbiana County Telephone company or they would fall down.

The contractor informed the company and had it been a fit day Monday the change in the location of the poles would have been made. Before any change can be made it will be necessary to cut down several trees, but no trouble is anticipated from this quarter, as the grading is absolutely necessary, and the trees will have to come down in order that the contract can be carried out to the letter.

### UMBRELLA MENDER ARRESTED

Ocie Geary is again a boarder at the city boarding house. Ocie was drunk and disorderly last night and was captured by Officer Mahony. The patrol was called and she was given a ride to city hall.

When she faced the mayor this morning she was fined \$1 and costs, and not having the money is still behind the bars.

John Micron, an umbrella mender, was arrested last night at the saloon of Jack Ecker on Market street by Officer Mahony. He was taken to city hall, where a charge of drunk and disorderly was placed against him.

This morning Ecker appeared at city hall and told the mayor that a colored man employed at the place had been fooling with John, trying to put him out of the saloon. When he got him out he handed him over to Officer Mahony.

The mayor will give him one hour to shake the dust of the city from his feet.

Robert Hopkins, the colored man who was arrested on a charge of shooting with intent to kill Saturday night and placed under \$500 bond, was taken to Lisbon by Chief Thompson this morning to await the action of the grand jury, which sets in February.

The poker players caught in the room run by Tim Dailey Saturday night were fined \$6 60 each. The proprietor of the room was fined \$19 60. They all paid their fines.

### A RUNOFF.

### A Team Owned by Dan Welsh Frightened at the Pony This Afternoon.

A runoff occurred on East Market street at 2 o'clock this afternoon. A team of horses attached to a wagon owned by Dan Welsh, who resides at Hall Deadening, had been left standing near the fire station and they took fright at the pony, which was doing some switching in the upper yards, and started out the street toward the Diamond.

When the team reached the corner of Sixth street they ran into a telephone pole and were stopped.

# WHO BEARS THE RESPONSIBILITY

This Is the Question Which Is Being Discussed Respecting Street Paving

## AND THE NECESSARY REPAIRS

Contractors Indignant at an Article Which Appeared In the News Review.

### VARIOUS SIDES OF QUESTION

An article appeared in the News Review of Saturday, November 24, respecting the condition of the street paving at the commencement of Trentvale street, on West Market. This article was written by a trustworthy, careful and painstaking reporter, and the information embraced in said article was gleaned from what is deemed thoroughly reliable parties.

In Saturday's issue the statement was made that the paving at the point designated is very bad, and that in all probability council would not accept it from the hands of the contractor until the faults were remedied. It was further stated that the heavy traffic wagons had torn the paving loose and left it in bad condition; and, further, that the bricks were laid wrong at the intersection.

Rinehart & Ryan are the contractors, and they were very indignant at the statement as it appeared. Harrison Rinehart called at this office and courteously requested the writer of this article to accompany him to Trentvale street and make a personal inspection, which request was gladly acceded to, and the ground in question was thoroughly gone over. We are not experts in street paving; we are not specialists on intersections; we are not acting for the city of East Liverpool, and we are not interfering with the duties of councilmen, the men who are supposed to look carefully and conscientiously after the best interests of the people at large. Neither do we desire to do injury or to be guilty of an injustice to any honest or conscientious contractor. Mr. Rinehart states that the work of the contractors at this point is all right, and in strict conformity with specifications. Inspection demonstrated the fact that the bricks are sunken from the gutter on the right hand side of West Market street to the entry of Trentvale street, a distance of about thirty feet; but Mr. Rinehart assured us that this is the fault of the city engineer, he having put down a sewer at the point designated, and the pavement afterwards sinking where his work had been done. Mr. Rinehart said this matter could be remedied for a sum not exceeding three dollars. He also stated that the pavement was laid all right, the brick being placed at right angles with West Market street, as is right and proper and in conformity with all well established rules in paving. He further said that it was to Rinehart & Ryan's best interests to do the work in a first-class manner, as they, the contractors, were compelled to keep the streets in repair for one year after they were accepted by council.

The writer has since interviewed a member of council, and he states that he has personally inspected the work, and that it is not properly done, and that the brick at the point where Trentvale street is reached are not properly laid; that instead of being laid at right angles with West Market, they should be laid in "V" shape, as has been done at other points of a like nature. He further insists that the work will not be accepted by council until everything is satisfactory, and that this rule will control in all

future contracts, including street paving and grading. Speaking along the line of the contractors being held responsible for repairs for one year after their work has been accepted by council, he says that this is the law, but that it amounts to nothing, as council has been paying the contractors up in full, when 10 per cent of the amount should be retained for the time designated, one year, in order that this might insure better work in the first place and be full security for repairs within the time specified, when the work was not properly done; admitting, however, that if the bond of the contractors embraces the said year, then it would be an injustice to hold the said 10 per cent.

And we now await fuller developments.

### A NEW POSITION.

Our Former Townsman, Al W. Ferren, Now Holds a Responsible Position at Monessen, Pa.

The Monessen News of Saturday says:

"Al Ferren, of East Liverpool, O., formerly the genial and accommodating manager of C. M. Derickson's store, has been elected to the position of clerk in the tin plate office, made vacant by J. Howard Kelly's appointment to cashier of the Monessen National bank.

"Mr. Ferren is a faithful and active worker in the Methodist church, and many contributions to the church's finances are due to his energetic efforts. During his short but pleasing residence in Monessen he has gained numerous friends and associates who will be glad to hear of his advancement, and wish him abundant success at his new station."

The many friends of Mr. Ferren in this city will be pleased to hear of his good fortune.

#### TELEPHONE SERVICE.

Rights And Privileges of Subscribers to Telephone Service—Don't Abuse Them.

To the Editor of the News Review.

Nov. 22, 1900.

Dear Sir:

The people of Columbiana County in general and some of the patrons of the Columbiana County Telephone company are laboring under a mistaken idea of the proper use of the telephone. In the first place no company can give service and maintain that service free. We are receiving complaints from all parts of the country by our subscribers, that they are not put in communication with customers in other towns quickly, and many of them suggest that we string more wires to supply the demand for out of town service. At the same time little do they think of the cause of the delay. A thousand and one wires will not supply the demand for an absolutely free service. If you buy a ticket to Lisbon, does that include all your friends and neighbors? No. Now I do not believe that any subscriber would wilfully abuse the service, but without thinking or considering, many are so doing. The lines between towns are put up and maintained for the benefit of those who have and are willing to pay a very moderate price for their use. Every subscriber, according to his contract, has a right to call up a party in any other town in the county and talk to that subscriber for a limited time without extra charge. It is paid for in his rental. If that subscriber has an employee, whom he, the subscriber—wishes to have him—the employee—transact business for him over the 'phone, then the employee has the same right to the line for that purpose and that purpose only, as the proprietor himself. No employee or person other than the subscriber's has any right whatever to the use of the lines free of charge.

This may seem arbitrary, but when you take into consideration the fact that every time a subscriber lets a non-subscriber use his telephone to communicate with some friend in another town, he is using that line—more than likely—to the exclusion of some business man who has already paid for the use of that line, and should have it. Therefore, if our patrons will remember this, and when a non-subscriber asks for the use of the toll lines, tell them that the toll lines are not free to the world, we will do our part to give you—our subscriber—a prompt and efficient service. Our switch-board girls will, in the future, ask the party who wishes to talk out of town, whether they are subscribers or not, or whether the business is to be transacted for the subscriber—wherever they are not familiar with the voice—and if they are found not to be a subscriber, and the subscriber insists upon their using the line, the toll will be charged up to that 'phone number. In this way, and this way only, can we ever expect to give prompt service to those who pay for it.

Prompt service is what you de-

mand of us. Comply with this most reasonable request and you will get it. Respectfully submitted,

THE COLUMBIANA COUNTY TELE-

PHONE COMPANY,

S. C. THAYER, President.

## THE BASIS OF REPRESENTATION

Considerable Difference of Opinion as to What Shall Be Under New Census.

## THERE IS A GENERAL DESIRE

That House of Representatives Shall Not Be Increased Beyond Present Membership

## HOW IT IS ALL FIGURED OUT

There is considerable difference of opinion as to the basis of representation under the new census. There is a general desire that the house of representatives shall not be increased beyond the present membership, which is 357, Utah having been admitted to statehood since the passage of the present apportionment act, which necessarily added one representative to the number fixed by the act.

Under the first apportionment the basis of representation was fixed at 30,000 inhabitants, which gave the house a membership of 65. This increased under each successive apportionment, the tenth census, which was taken in 1880, fixing the basis at one representative for each 151,911 of population, and making the membership of the house 325. Under the census of 1890 the ratio was increased, making the basis of representation 173,901, and the membership of the house 356.

To continue the present membership of the house would require the basis of representation to be fixed at 209,000. If that figure should be adopted there would be changes in the representation of several of the states, some of them losing and others gaining members. At 194,000, it is estimated that no state would lose members, but the membership of the house would be considerably increased, which is not desirable for several good reasons. In the first place, the house as now constituted is found to be almost too large for the expeditious conduct of business, and in the second place, the hall will not accommodate a larger number without material changes in its constructions and methods of doing business. If the basis should be fixed at 200,000 there would be an increase of about 18.

## COLD SCHOOL ROOMS.

There Was a Great Deal of Complaint During Last Winter.

Last year there was a great deal of complaint from parents of school children that their children were compelled to remain in school when the temperature of the rooms was altogether too low.

In some rooms last year school was continued in session when the temperature was not quite 50 degrees, and it is deemed expedient that the board of education fix a heat at which school shall be dismissed, in order that such a state of affairs shall not exist this year.

It is also stated on good authority that the board of health may look into the matter, as it is deemed very detrimental to the health of children to keep them in a cold room for any length of time.

Superintendent Rayman when interviewed in regard to the matter stated that rooms were not supposed to be kept below 65 degrees, but naturally the temperature would run down while the children were congregating in the room, but would not remain below 65 degrees very long.

In the opinion of eminent physicians of the city the temperature of the rooms should never be permitted to remain below 60 degrees, and when it does it is time to dismiss school.

Yesterday school was dismissed at one of the rooms at the new Helana building, and it is held that such dismissals should take place in every building in the city just as promptly when the temperature becomes too low.

## HOW IT'S BACKED.

Undoubted Reliability is Expressed in East Liverpool In-dorsement.

What you want is home in-dorsement.

The backing of people you know. East Liverpool proof for East Liverpool people.

That's what follows here; Surely no better backing can be had than the following:

Mrs. Edmund Purton, of 233 Ravine street, says: "I had backache, headache and other symptoms of the complaint for two years. When the last attack came on I went to the W. & W. pharmacy and got a box of Doan's Kidney Pills. In a very short time I was relieved. My husband, who is a painter, decorator and paper hanger of the firm of Purton & Jackson, was seized with a severe attack of kidney complaint. Some years ago he contracted a fever, which left his kidneys in bad shape, and ever afterwards he had more or less trouble. When suffering last a gentleman advised him to try Doan's Kidney Pills, emphasizing the fact that he had been a sufferer from kidney disease, confined to his bed; his physician informed him that perhaps he would be able to get him up in two or three weeks; that he used Doan's Kidney Pills and in a day or two he was able to be up and about his business. My husband got a box at once. They were prompt in relieving him. We can heartily recommend Doan's Kidney Pills."

Sold for 50 cents per box by all dealers. Foster-Milburn & Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

## RUM MADDENED.

"And he shot with intent to kill." This is the charge against the colored man who made use of a revolver in this city the other night. And the further statement was adduced at a hearing: "He was maddened by the use of intoxicants." There is a whole history connected with the above few lines. Fill the background in for yourselves. The nation at large is awaking to the fact that the liquor traffic is an unmitigated evil and curse, and that the saloon is an absolute menace to the prosperity and existence of this great republic.

## CITY COUNCIL.

"Will our city dads take any action tonight respecting the inefficiency of the East Liverpool Street Railway company?" This is the query of patrons on every hand, especially those who reside in Wellsville and in the East End, in company with workmen who find it necessary to make use of the street cars in going to and from their work. East Enders are especially indignant, and their complaints are long and loud. A reliable lady resident of East End informs us that she found it necessary this morning to make three changes in cars in order to reach her destination in the Diamond. If the word of good citizens can be relied upon, the service has degenerated into a farce.

## THE FOOL KILLER.

If the fool killer had been present at the M. P. church the other night, he would have had a splendid target, at short range, at the fellow who made himself an object of contempt and ridicule. This same fellow made a bigger fool of himself than nature intended, a short time since at a political meeting. He is evidently under the impression that he is a holy terror, a bad man from Kalamazoo, a gaoler from Bluffville, Chatter county, Cheek township, as he tried to bluff the judges at the polls at the late election, and vote from the standpoint of unadulterated gall; but he was called down to the queen's taste by our townsman, J. H. Burgess. The fellow is breeding trouble for himself, and don't seem to possess sense enough to get in out of the cold.

# EAST END.

## THE GIRLS

Don't Like Each Other And When They Meet There is Trouble.

For some time past two employees of the East End pottery have been annoyed by several other girls residing in the East End. Scarcely a day passes that they don't come together, and when this occurs the language used during the encounter is much more forcible than elegant.

Complaint has been made to the authorities by the two girls from down town, but the annoyance went on just the same.

Yesterday complaint was made to the mayor, who suggested that they go before a justice of the peace and have a peace warrant issued, but this did not suit the parties interested in the girls, so an attorney was consulted.

It is likely that some interesting developments will follow.

## A DRUNKEN MAN

Annoyed the Residents of East End And Then Escaped Arrest.

A drunken man annoyed the residents of East End for some time last night and despite the fact that Officer Hamilton was after him, succeeded in eluding the officer.

The fellow came from Mulberry street through the alley to First avenue, and when about half way across fell in the mud. His clothes were completely covered, and after cleaning them the best he could went down First avenue to the run, where, in an attempt to cross the stream, he fell in. This was the last seen of the man.

## LIBBY CUT GLASS.

Brighten up your Thanksgiving dinner table with a piece of Libby cut glass. None finer. Sold only at the Eagle Hardware Co.

## NO LIGHT.

The Service in the East End is Not the Best in the World.

The light service in East End is still very bad, and last night scarcely half of the lights in this section were lighted.

The arc light on First avenue, opposite the fire station, was out all last night. The people at the power house were informed, and when the employee arrived the light had started to burn. This was about 9 o'clock. He had not gone 10 minutes when it again went out and remained so all night.

With the streets in their present condition it is extremely difficult to get about after night with no lights.

## A KEEN EDGE.

## Blew the Roof Off.

During the storm the other night the roof of Alex Browntee's house, Dixonville, was torn off and other damage done.

At another house in the same locality the door was blown open and a large mirror blown from the wall and broken. The owner valued the article at \$50.

## SALTS AND PEPPERS.

We have just received a nice line of genuine cut glass, sterling top, salts and peppers at very reasonable prices, at the Eagle Hardware Co.

## NOTES OF EAST END.

Miss Myrtle Hayes will leave tomorrow for the home of her parents near Hookstown, where she will spend Thanksgiving.

Miss Jennie Hunter, of St. George street, is ill.

J. W. Swain is ill at his home on Virginia avenue, threatened with fever.

## LAMPS AND GLOBES.

We have not neglected our lamp department. We are showing all the latest 1900 patterns, at the Eagle Hardware Co.

## SWAN SAYS

That a Local Paper Didn't Tell the Truth in Regard to His Accident.

Yesterday a local paper printed a story in regard to Charles Swan coming in contact with a live wire at the corner of Seventh and Jackson streets.

Swan called at the News Review office today and said the item was wrong in details. He says he is 21 years of age instead of 22, and lives with his wife and not his mother; that there was no examination made; that he was not burned; that he walked into the barn himself and walked home after he had sufficiently recovered.

He says the steel rod of his umbrella came in contact with the wire, stunning him and he fell across the wire and was thrown fully 12 feet.

## NEW OFFICERS

Were Elected by the Odd Fellows at Their Meeting Held Last Evening.

East Liverpool Lodge No. 379, I. O. O. F., met last evening and elected the following officers:

Nobie grand, Sheridan McGavern; vice grand, James Kirkham; recording secretary, R. M. Newell; financial secretary, Alex. McBane; treasurer, George H. Owen; trustee, J. W. Clark; host, Thomas Todd; captain of degree staff, George W. Croxall; lieutenant, Thomas McClarey Pickal; organist, Charles Usler.

## LEAVE YOUR ORDERS.

These Mighty Nimrods Expect to Bag Great Loads of Game.

Doctor Davis, East End, accompanied by Attorney Frank E. Grosshans, will leave tomorrow morning for a jaunt through field and forest, in search of game in season. They bear the reputation of being crack shots and anticipate bringing home game galore. The disciple of Blackstone has promised us a pair of quail. We are living in anticipation.

# SOUTH SIDE.

## THE COAL FLEET

OF THE TOW BOAT MONT CLAIR RELEASED AT ROCHESTER

This Morning Was Not Recovered Until it Reached a Point Below This City.

The tow boat Mont Clair let go her tow of five barges at Rochester early this morning for the purpose of lowering her stacks to get under the bridge, but the entire fleet got away and was not recovered until Jethro was reached.

The barges were seen approaching and E. S. Good and three other men secured a skiff on the Southside for the purpose of rescuing the runaway. They succeeded in getting a line out to the fleet, and with a great deal of difficulty secured the line to some willows at the mouth of the run below Allison's grocery.

When the full weight of the barges came upon the line it was torn loose from its fastening and the barges got away.

In the confusion one of Good's companions fell overboard and came near being drowned.

The Mont Clair caught the outfit shortly afterward opposite Jethro and the boat continued its journey.

## HIS HORSE DRAGGED HIM.

James Gibson had an encounter with his horse yesterday afternoon, and the horse came out first best. Gibson was dragged all over the lot, and when the animal was through with this operation he started across the run. When the pair emerged from the pool on the other side Gibson was soaked completely.

He states he is not opposed to emersion, but had he his own way about it a more temperate climate would be selected for the operation.

## HE IS BETTER.

Samuel Swearingen, who has been ill for a long time, underwent an operation yesterday. Dr. Lewis operated upon the sick man and it was very successful.

The old gentleman is much better today, and is now in a fair way to recovery.

## OYSTER SUPPER.

The Chester council, American Mechanics, will tonight hold an oyster supper and social. A large number of guests will be present and a pleasant time is anticipated.

## PUMP UNDER WATER.

The pump at the Chester water works is under water and no work is being done there today.

## THE FORFEIT COVERED.

Arrangements Were Made Last Night for the Game Between the National Guards and Royal Tigers.

Manager Williams and "Pokey" Little, of the National Guards football club, paid a visit to East End last night, and while there placed a \$25 forfeit in the hands of Dr. F. F. Davis, of St. George street.

All arrangements were there made for the game between the Royal Tigers and the Nationals. It was agreed that the game should be played on Thursday, December 6, at Rock Springs, and none but those participating in the former game will be permitted to play.

There is at least one man who has stated that he will not play and he will be replaced by some one of the subs on that team's list.

It is needless to state that both teams will begin active practice at once.

# MARRIED A COUNT.

Philadelphia Girl Allies Herself to a French Nobleman.

## A CREDITOR AFTER ANNA GOULD.

London Man Secures Temporary Injunction to Prevent Trustees Paying Her Money—Effort to Compel Payment of Count's Debts.

Philadelphia, Nov. 27.—Adele, daughter of Dr. Walker F. Atlee, was married to Louis Vicomte de Branges de Bourcia in St. John's Roman Catholic church. Father McPhilomy performing the ceremony.

The bride wore a plain street gown and after the ceremony the couple went direct to Dr. Atlee's country house at Wayne, where they will make their home. An evidence of the vicomte's renunciation of his title is given in the cards sent to friends, bearing the simple words: Mr. and Mrs. Louis de Branges de Bourcia.

New York, Nov. 27.—Justice Fitzgerald, sitting in the supreme court, issued an injunction order on application of Samuel Untermeyer, returnable on Monday next, against the Count and Countess Castellane and the Goulds, restraining them from paying to the Countess de Castellane any part of the estate in the hands of the trustees, or from applying any part of the trust fund to the debts of Anna Gould or to her support or that of her children, until the further direction of the court.

The plaintiff is Anton J. Dittmar, who sues as assignee of Asher Wertheimer, a London bric-a-brac dealer.

The complaint contains copies of drafts amounting to upwards of \$35,000, of which \$25,000 and upwards are past due.

It is alleged that Anna Gould has \$18,000,000 held in trust for her by her brothers and sister and that her income is about \$900,000.

It is claimed that \$250,000 a year is all that the count and countess require for their support, and the plaintiff asks that the rest be applied to the count's debts. Other creditors are said to be behind the case, and that it is said to be a test case.

A few weeks ago George J. Gould was appointed guardian for the Countess Castellane in a proceeding in the French courts. The creditors claim that the purpose of this proceeding was to get the property of the Countess de Castellane away from attack by her creditors, so as to enable the Goulds to force settlement of the debts at their own time and on their own terms.

This the Goulds denied in a statement issued for them, and said that neither they nor the courts could touch the principal of Anna Gould's estate, according to the late Jay Gould's will, and that it goes to her children, after her death.

New York, Nov. 27.—Eugene Zimmerman, whose daughter was married to the Duke of Manchester a week or so ago in England, was interviewed here. He said to a reporter:

"I have come here to meet my daughter and her husband. After they have rested here a few days we will go to Cincinnati and a reception will be given at my home. The duke is a bright chap. He's a fine, manly fellow. I like a man who who went to work as he did as a newspaper man when he was here. Some of his articles were first rate, too. At no time was I opposed to his marriage to my daughter. Those stories are all moonshine."

"Is it true that the duke is in a bad way financially?" asked the reporter.

"I guess there won't be any difficulty about his debts. Not at all. That does not make any difference. I don't care to speak about the marriage portion. That is a private matter. But there won't be any trouble about debts. They will be well, that's all right; all right."

"Is it likely that the duke may settle down in America and enter the railroad business?"

"No, no; the duke is going into British politics. He is entitled to a seat in the house of lords, and he is going to turn his attention to politics."

Samuel K. Wilson Dead.

Trenton, N. J., Nov. 27.—Samuel K. Wilson, one of the oldest citizens of Trenton, and prominent manufacturer, died, in the 83d year of his age.

Improvement in the Czar's Condition.

Livadia, Nov. 27.—Physicians, in their bulletin, said that at 9 a. m. Monday there was distinct improvement observed in the general course of the czar's condition.

## FOUR SOLDIERS KILLED.

List of Casualties Received From General MacArthur—A Number of Wounded.

Washington, Nov. 27.—The war department received the following list of casualties in the Philippines from General MacArthur at Manila:

Killed—Nov. 11, Bulucan, Panay, Company L, Forty-seventh infantry, Thomas W. Hollingsworth; Nov. 14, Amulug, Luzon, Company F, signal corps, Sergeant Robin C. ## ADOPTION NOT LIKELY.

Opinion in Washington That Allies' Agreement Will Have to Be Revised. Not Made Public.

Washington, Nov. 27.—The state department has been informed of the agreement or understanding or preliminary treaty (it is not possible to learn in just what form the matter stands) reached by the foreign ministers at Pekin. Details were not given out, but it may be stated, however, that the arrangement stands a very poor chance of receiving the sanction of all the powers represented in the Pekin conference, unless some material amendments are permitted.

## BEGINS CAMPAIGN FOR 1904.

Prohibitionists Already Collecting Money For the Fray.

Chicago, Nov. 27.—Chairman Stewart of the Prohibition national committee, announced that funds for the campaign of 1904 are already being collected and that it was the intention of the party leaders to make even a more vigorous campaign than the last one.

"More than \$7,000 has already been sent in," said Chairman Stewart, "and this, too, only three or four days after notices had been sent out that we were ready to begin the work. It is the intention of the national committee to effect organization in every precinct of every township in every state, and every state campaign of 1904 will be vigorously fought."

## VESSELS WENT ASHORE; CREWS RESCUED.

Sandusky, O., Nov. 27.—The steamer M. Sickles and the schooners Spademan and Malvina went ashore in the gale on the Marblehead beach and they are being pounded to pieces. The crews were taken off by the life-saving crew from Marblehead. The wrecked vessels were loaded with lumber.

## DAVIS' PATHETIC HOPE

Thinks He Is Needed In Senate For a Few Years.

## HIS FAMILY AWAITS THE END.

Physicians Practically Admit That So Far as Any Human Agency Can Know, Death Is Certain—Difficulty In Administering the Necessary Medicine.

St. Paul, Nov. 27.—Reports from the bedside of United States Senator Cushman K. Davis were that his strength was slowly ebbing away. His physicians do not anticipate dissolution immediately, but practically admit that so far as any human agency is able to know, death is certain. The family have all along been buoyed up with a faint hope that the statesman might have greater reserve strength to have at last abandoned even this faint hope and are anxiously awaiting the end.

He was unable to take much nourishment and there was even difficulty in administering the necessary medicines. His wife, parents and sisters kept close at hand, and all that could be done to alleviate his suffering was done. When not delirious he sank into a stupor and seemed hardly conscious of what was passing about him. In his moments of semi-consciousness the senator will exclaim about his desire to live and express his wish for a few years more life, as he feels he is needed in the senate. His attendants are much effected with the earnestness with which he states his belief in the necessity for him on the floor of the senate.

## BISHOP HALE VERY ILL.

His Death Expected—Has Been Suffering For Several Years With Heart Trouble.

Springfield, Ill., Nov. 27.—Right Rev. Charles Hale, bishop of Cairo, is lying critically ill in Cairo, and his death is expected at any time.

He has been suffering from valvular disease of the heart for the past two years, and spent about one year in Europe for the purpose of improving health, and returned recently slightly improved, but since has grown worse.

## RELATIVE OF PRESIDENT DEAD.

Mrs. Joanna Robinson, His Second Cousin, Expired at St. Paul.

Minneapolis, Nov. 27.—Mrs. Joanna Robinson, a second cousin of President McKinley, died at her home, No. 632 Lawrence avenue, St. Paul. Mrs. Robinson was 75 years old and was born in Scotland, at the old family home of the McKinleys. She had been a resident of St. Paul for many years. She was the widow of William R. Robinson, formerly a prominent druggist of that city.

On the occasion of the president's last visit to the northwest he made a long call at the Robinson home.

## FIVE AKRON RIOTERS SENTENCED.

Ryan, Charged With Trying to Bribe a Witness, Attempted Suicide.

Akron, O., Nov. 27.—Judge Kohler sentenced five of the Akron rioters who have been convicted to date. Harvey Earl, Frank Sickles, David Davis and Oliver Morgan were sent to the Ohio reformatory for indefinite periods, and James McClelland to the penitentiary for one year.

Thomas Ryan, charged with attempting to bribe a witness in the Eppley case, attempted suicide by hanging in the jail.

## ONE MAN KILLED.

Trenton, N. J., Nov. 27.—On the Delaware river bridge between this city and Norrisville, Pa., a drill engine ran into the rear end of a freight train, demolishing the caboose and wrecking the engine. Frederick McDowell, a train hand, was killed by being struck by a beam of the bridge. Subsequently a passenger train, bound east, ran into the wreckage. Passengers were shaken up.

## NEW VICAR GENERAL ANNOUNCED.

WILSON'S CONDITION REPORTED IMPROVED.

Washington, Nov. 27.—Commissioner of Internal Revenue Wilson was reported improved.

## ROUBLE WITH INDIANS.

Militia Ordered to Be Ready to Back Up Game Commissioner, If Needed.

Rifle, Col., Nov. 27.—Game Commissioner Johnson and his deputies proceeded to Hecker by stage in an effort to drive the White river Indians, who are now slaughtering Colorado game, back to their reservation.

Denver, Nov. 27.—Adjutant General Overmeyer wired Troop A, cavalry, at Grand Junction, to be in readiness for immediate call in case Game Commissioner Johnson's force should not be equal to the Indians in the White river district.

Corn Sold for 50 Cents.

Chicago, Nov. 27.—November corn touched 50 cents. It made an advance of 5 cents for the day, of 10 cents a bushel for the week, and of almost 15 cents within four weeks. Young Mr. Phillips sold what corn changed hands at that point. Shorts did the buying that advanced the market to the 50-cent quotation.

## BRYAN WILL ATTEND BANQUET.

Chicago, Nov. 27.—William J. Bryan has given assurances that he will be present at the Jackson day banquet to be held in this city on Jan. 8. It is thought that on this occasion Mr. Bryan will declare himself on the future of the party.

## OLD SOLDIERS CONGRATULATE THE PRESIDENT.

Washington, Nov. 27.—General Daniel Sickles and 30 fellow old soldiers, some Democrats, called on the president and congratulated him on his re-election.

# A RESERVOIR BURST.

Town of Chauncey, O., Was Flooded.

## TWO MEN KILLED AT AKRON.

Storms and Floods Do Great Damage In Ohio—Streams In Western Pennsylvania on Rampage—High Water Expected at Pittsburgh—Fire and Flood at a Village.

Athens, O., Nov. 27.—As a result of the heavy rains the reservoir near Chauncey burst and flooded the town, a mile away. The reservoir covered three acres and was 20 feet deep. A hundred yards of railroad track was washed out and nearly all the residences in Chauncey were flooded. A hill deflecting the course of the water saved the Chauncey mine, where 100 men were at work, from being flooded.

Akron, O., Nov. 27.—The storm cost two lives and did much damage in this city and vicinity. The greatest havoc was among electric wires and the telegraph, telephone and light companies suffered heavily. A number of people received more or less heavy shocks from contact with these wires. The most serious accident occurred on Wooster avenue. Frank Wernet and Louis Rohr were going up street together, when they noticed a telephone wire lying across the street in their path. Both men stooped to pick it up at the same time. The wire had fallen across a light or trolley wire and the men both received a heavy charge of electricity, killing them instantly. Both men caught the wire in their left hand and both their hands burned to a crisp. Wernet was 35 years old and had a family, while Rohr was only 20 years old and single.

Pittsburg, Nov. 27.—Rains at the headwaters of the confluent Monongahela and Allegheny rivers had swollen their currents above the danger line of 22 feet along the local fronts, and the full volume of the rise is yet impetuously swirling toward the city. Frank Ridgeway, United States forecaster at the weather bureau, at 10:30 o'clock last night stuck to his prediction that the ultimate stage of the waters will be from 25 to 26 feet, though at that hour the marks at the Sixteenth street bridge in the Allegheny showed 23 feet 9 inches, and the Market street gauge in Pittsburg stood at 23 feet, with both rivers rising at the rate of six inches an hour. Frank S. Glaser, who manages the transportation of the coal barges for the Monongahela coal combine, said the stage seen this morning would be from 20 to 28 feet, and he was conceded to be an authority.

Charleston, W. Va., Nov. 27.—Rainfall caused a rapid rise in all streams in this section of the state. The Kanawha has almost reached the danger line here and people in the lowlands are already moving out.

Columbus, O., Nov. 27.—The damage done throughout the state by the storm will reach thousands. At Chagrin Falls the telephone switchboard burned out and set half a dozen houses on fire. At Cambridge several buildings were blown down and at Batavia Miss Annie Hurd was drowned, driving into a stream where a bridge had washed out. The Ohio river and Southern Ohio streams are rising rapidly. Wires are down in all directions and trains are delayed.

Middleboro, Ky., Nov. 27.—Cumberland, Powell and Clinch rivers have overflowed their banks, doing immense damage to farmers. The lower portion of Powell valley is inundated and those living along its banks have been compelled to move to higher ground. Ben Turner, of Middleboro, was drowned in the flood while trying to swim his horse across Yellow creek.

Williamsport, Pa., Nov. 27.—At the village of Cross Forks, on the Clinton and Potter county lines, a man started a fire in a sheet iron stove and left the house. A blaze resulted and before it was stopped five stores and dwellings combined, two barns and an ice house were destroyed and the entire town would have gone had it not been for the rain. The loss is \$75,000 and there is some insurance. The town has no fire protection. To the terror of the occasion was added wholesale thieving of the goods rescued from the flames.

Scarcely had the excitement subsided when the biggest flood ever known in the vicinity struck the town. It covered all the low lands and carried away two bridges on the Buffalo and Susquehanna railroad. The tramway of the Lackawanna Lumber company was so badly damaged that it will require a week to repair.

## A DAY IN WALL STREET.

Movements In Some Railroads and Some Other Stocks—Some Points In Bond Market.

New York, Nov. 27.—The reactionary tendency which weighed on the stock market during the latter part of last week was distinctly overcome Monday, and prices resumed their upward course. The advance was by no means uniform, the striking gains being confined comparatively to few stocks.

Bear manipulation was evident not only here, but in foreign markets. A settlement is in progress on the London stock exchange and in Berlin. London was a large buyer in this market, sales to that account being estimated at 30,000 shares. The southern railway stocks were in special demand. The common and preferred stocks advanced an extreme 3 points each. Strength was radiated first to the southern group and then to the southwestern, in which some striking gains were recorded. Both the preferred stocks, on which dividends are paid or are earned, and the low priced common stocks, for which dividend prospects are remote at the best, were effected alike. Gains in the group ran from 1 to nearly 3 points. The more northerly granglers came into the movement, especially Burlington, but did not show such marked strength. The leading specialties were very strong, including Sugar and People's Gas. The local tractions showed a good recovery and Consolidated Gas was conspicuous with a rise of 4 1/4. The steel stocks were decidedly unsettled. Steel and Wire showing acute weakness at times. Reports were current of serious controversies between the great combinations in the trade. Amalgamated Copper gave way on account of the meager details of the conditions and resources of the company contained in the statement to the stock exchange to secure the admission of the stocks to the unlisted department. The drop in this stock and a disposition to realize made the tone of the closing unsettled and prices were below the best, but the gains in the railroads were well maintained.

United States refunded 2s when issued and the 5s advanced 3/4 and the 3s 3/4 per cent on the last call.

## LACEMAKERS ADMITTED.

Government Allowed Those Secured by John Alexander Dowie to Enter the Country.

Washington, Nov. 27.—Commissioner General Powderly, in the course of his letter to the commissioner of immigration, directing that the lace makers secured by John Alexander Dowie be admitted, said:

"It appears that it is the purpose of Dr. John A. Dowie, who had arranged with the appellants to come over with the purpose to secure their services in the manufacture—not only of lace, but also of the thread from which such lace is to be made. Although lacemaking in some of its branches has been carried on in this country for some years, heretofore it seems to have been the practice to import the thread used in such establishments.

"The department is of opinion that said industry is a new one, not established, and as it is not claimed or shown by the representatives of the lace makers' union that labor could have been obtained in this country to prosecute the industry, there is apparently no violation of the alien contract labor law."

It is held that the immigrants come within the law's exception. It is also held they are not only likely to become public charges.

Altoona Bonds Declared Valid.

Hollidaysburg, Nov. 27.—Judge Martin Bell, in the Blair county court, handed down a decree declaring valid an issue of bonds aggregating \$229,000, which the city of Altoona had issued to cover costs of street improvements.

Wellington's Name Omit'ted.

Washington, Nov. 27.—In making up the Republican caucus list of the senate the name of Senator Wellington, of Maryland, has been omitted at his own request. He has chosen a seat on the Republican side, however.

A Break In Erie Canal.

Rome, N. Y., Nov. 27.—A break occurred in the 60-mile level of the Erie canal, about four miles west of here. One hundred feet of the bank went out and the water rushed down on the flats.

## Republicans Did Not Accept.

St. Paul, Nov. 27.—The Republican state executive committee considered the proposal of Democratic Chairman L. A. Rosing for a recount in eight counties, four to be selected by each side. After the meeting Secretary C. C. Whitney sent a reply to Chairman Rosing declining to accept the proposition. The committee holds that it has no power to enter into such an agreement, and, moreover, that there is no authority for such a partial recount.

## Issue Between Turkey and America.

Washington, Nov. 27.—The issue between the state department and Turkey over the withholding of an exequatur to Dr. Thomas H. Norton, to be consul at Harpoot, has passed into the controversial stage, and the indications are that it will be weeks before the matter is settled.

## Sullivan's Remains to Be Interred Today.

London, Nov. 27.—The remains of Sir Arthur Sullivan, the composer, who died suddenly Thursday morning last, at his home here, will be buried today in St. Paul's cathedral.

## Bishop Potter Forwards Evidence.

New York, Nov. 27.—Mayor Van Wyck received a letter from Bishop Potter, saying that the statements made by the Rev. Messrs. Paddock and George regarding insulting language used to them by certain police officials would be sworn to and forwarded to the mayor. These statements were requested by the police board several days ago, presumably for use in connection with the trials of Inspector Cross and Captain Herlihy.

## Chartered at Harrisburg.

Harrisburg, Nov. 27.—Charters were issued at the state department in part as follows. The New Castle and Beaver Falls Street Railway company, from New Castle to Beaver Falls; capital, \$100,000. ## The Welcome

At the door from a happy, healthy wife, is something which the husband looks forward to all through the day's labor. He may be tired, but his step lightens and his face brightens as he quickens his pace to receive the smiling welcome of his wife. What a difference in the home-coming of the man whose wife is nervous and gloomy, having neither heart nor strength to be glad. Many such a husband has worked a transformation in his home-life by learning of the cures performed by Dr. Pierce's Favorite Prescription.

It cures diseases of the delicate organs, builds up the nerves, induces refreshing sleep, and transforms the sickly woman into the happy helpmeet.

There is no alcohol in "Favorite Prescription" and it is absolutely free from opium, cocaine, and all other narcotics.

"My wife was sick for over eight years," writes

Albert H. Fulte, Esq., of Altamont, Grundy Co., Tenn. "She had uterine disease and was treated by two physicians, but got no relief. At last I read in one of your Memorandum Books, about Dr. Pierce's medicines, and we decided to try his

"Favorite Prescription." I sent to the drug store

and got one bottle, and the first dose gave ease and sleep. She had not slept any for three nights. Being sure that it would cure her I sent for five more bottles, and when she had taken the sixth bottle she was sound and well. We now have a fine boy at our house."
